

LADDER ASSEMBLY INSTRUCTIONS

Please FULLY read these instructions before you start assembling the Ladder

In the box:

- (2) Ladder Sides
- (12) Dowels
- (24) Screws
- (1) 4m hex allen wrench

1. Using provided wrench, screw all the dowels in one side of the Ladder
2. When done, place the other side of the Ladder on top of the dowels.
3. Starting at one end, put screws into the other side of the dowels

NOTE : Before you fully tighten the screws in make sure that the whole assembly lays flat without rocking. If it rocks, twist the sides until it lays flat.
