Toddler Tower Assembly

Please FULLY read these instructions before you start assembling the Toddler Tower

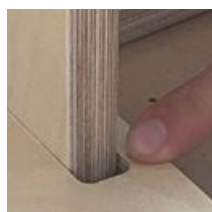

What's in the box:

2 sides, 4 narrow connecting boards, 1 step board, 1 platform board, 14 screws

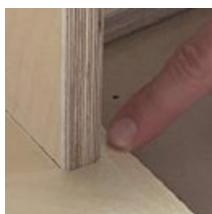

1. Place one side of the tower on a flat hard surface with the tower side cutouts facing up.
2. Put all the 4 connecting boards into appropriate cutouts of the tower side. (1)
3. Put the step board into the cutout closest to the tower legs, making sure that its end is all the way pressed into the very end of the cutout. (2a and 2b)
4. Place the other tower side on the top by gradually guiding each part into its corresponding cutout and affix connecting boards and the step board with screws. (3) The step board must again be firmly pushed to the end of the cutout. (2a & 2b)
5. Now, turn everything on the other side of the tower (4) and screw all the screws into the predrilled holes. (5)
6. Slide the platform board all the way into the cutout (6) choosing one of the two heights and affix the platform with screws.
