why purchase studio gear?

QUALITY

Beloved by teachers worldwide, Manduka products are celebrated for their durability and longevity.

An upfront investment in high quality gear is one that will pay off in the long run, for both your studio and your students.

Our PRO series mats offer high density cushion, joint protection, & unmatched support; they are made of a closed-cell material that keeps moisture and bacteria on the surface of the mat, increasing longevity and making post-class cleanup a breeze.

EASY TO CLEAN

Manduka's PRO series mats and recycled foam blocks are non-porous, making them more hygienic and easier to keep clean.

The microfiber fabrics in our yoga towels and bolster covers wick moisture away and are made to withstand many (many) washes.

SUSTAINABILITY

Made to honor the practice and the planet, our products are thoughtfully crafted using fabrics and processes that are both sustainable and performance-driven.

about manduka

OUR STORY

Manduka was founded in 1997 by Peter Sterios, a yoga instructor and architect, who began selling yoga mats out of his garage at his home in California. The mat that he sold came to be known as the Black Mat PRO, which is a German-made, high-performance yoga mat, and to this day the Black Mat PRO continues to be the foundation of our brand.

The Manduka brand and business grew, and our products are now used by over 2 million customers and 4 thousand yoga studios worldwide.

OUR BRAND

For 25 years, Manduka has built a reputation as the world's most respected yoga brand. Known for its legendary PRO Mat, Manduka creates high performance yoga mats, yoga towels, bags, props, and men's and women's fitness apparel. Designed by yogis and trusted by teachers worldwide, carefully selected and sustainable materials are paired with thoughtful design to create innovative products that allow a community across the globe to deepen their practice.
