

## **Blis Technologies Affirms Revenue Expectations**

29 Feb 2016

Blis Technologies Limited affirms expectations for revenue for the full year to increase by over 100% to in excess of \$5.3 million but rather than a small surplus, a small deficit is now anticipated in earnings before interest expense tax depreciation and amortisation. Although the provision for the replacement of stock into Europe proved sufficient, the company incurred greater than budgeted operating expenses.
