

## **Blis Technologies reports a maiden EBITDA surplus**

08 May 2017

Blis Technologies reports an unaudited EBITDA surplus of \$586k but a small net deficit of \$24k on total revenue of \$6,547k (2015: \$5,661k) for the twelve months to 31 March 2017.

The operating cashflow positive result represents an EBITDA turnaround of \$846k compared with last year and comes on the back of a 16% increase in trading revenue.

The Board of directors have chosen to defer the recognition of any tax asset due to the net financial deficit.

The company will report its full year annual audited financial results by Monday 26 May 2017.
