

## **New Chief Executive Appointment**

11 November 2015

Blis Technologies Limited announces the appointment of Brian Watson as Chief Executive following the resignation of incumbent chief executive Dr Barry Richardson announced in August this year.

The board had been presented with a number of impressive candidates during the recruitment process. However, Mr Watson's related experience and overall leadership qualities convinced the board he would be the right person to lead the company through its next stage of development. Mr Watson's strong sales and marketing credentials and experience are also important for where the company is going.

Mr Watson is currently Group Manager Preparedness & Response at Fonterra. He has been with Fonterra since 2011 and prior to that held a number of management and marketing positions in the pharmaceutical industry.

Mr Watson will be based in Dunedin and officially starts at Blis Technologies in mid-February.
