Warning

Not complying with these warnings will void your InstaCanopy warranty.

DO NOT set up or leave your InstaCanopy assembled in rain, hail, sleet, snow, mist, lightning, strong winds or any harsh weather conditions.

Do not allow water of any kind to accumulate on the canopy top.

Use T-shirts, stakes or weight bags to secure your InstaCanopy in windy conditions. Commercial stake kits and weight bags need to be purchased as accessories separately.

Always follow directions when setting up your InstaCanopy. Be aware of hands and fingers when expanding or collapsing frame.

It is recommended to remove canopy top from frame after take-down. Storing top on frame may result in fabric tears or other damage requiring repair or re-purchase.

Never clean the canopy top in a washing machine - serious damage will result. If cleaning is required, while set-up on the frame, use a light detergent on a cloth and gently clean top by hand, then rinse off with a garden hose.

Do not use detergent or hand cleaner. Top has custom silk-screened graphics.

Allow top to dry completely before storing.

Keep your canopy open at least 8 hours and indoors.

Do not use your InstaCanopy as a permanent shelter. It is designed for temporary use only.

Never leave your InstaCanopy unattended.

Setup

1. Stand the InstaCanopy frame upright in the center desired set-up location. Gently pull the outer frame legs partially extended with a second person assisting.

2. Lift frame into position by expanding the truss bars until the frame is fully extended. Be careful not pinch fingers or hands as you pull and step backwards slowly.

3. Now that the frame is fully extended, lock the top bracket sliders into place at each corner by holding the frame with one hand and pulling the slider in place until it locks.

4. Place the canopy fabric top over the entire extended canopy frame.

5. At each corner of the canopy frame, secure the canopy fabric top adhesive Velcro strip (underneath the inside of the fabric) to the upper canopy frame adhesive Velcro strip. Then pull fabric over to secure in place.

6. Adjust the frame legs to your desired height by lifting up each leg and slowly pulling out the inner leg into place until the leg pops into place. Placing one foot on each corner footpad and slowly extending each leg into place can also extend the frame legs.

7. Attach adhesive strips (Velcro) to each side and ceiling truss bars of the canopy frame to secure canopy top.

8. Your InstaCanopy is now complete!

Take Down

1. Push each push pin height adjuster on each leg and shorten the frame to its original height prior to extending the legs during set-up.

2. Disengage locking button at each corner of the frame.

3. Hold the middle frame section with a second person assisting on two sides of the frame. Walk forward slowly allowing for the frame to fold inward and close. Be careful not pinch fingers or hands as you close the frame. Secure the frame firmly for storage.

4. Completely fold the frame securely with or without the canopy attached (it is recommended to remove the canopy top).

5. Place the frame into the unzipped carry bag slowly until canopy fits comfortably. Zip the storage bag completely shut.
