## Getting started

Your Acetrack box includes Acetrack device, User guide, Charging cable and one extra mouthpiece.

→ The Acetrack device may need charging before use. Insert the attached micro-USB cable into the device in one end and an mobile phone USB transformator in the other end. Connect to your local electricity outlet. Let charging continue for approximately one hour.

→ This device requires an mobile phone app to work properly. Download it to your own smart phone by scanning the QR code.

→ Once you have downloaded the app, an onboarding procedure will explain all further details of the use of this device.

## European Declaration of Conformity

We, Deversify AB, 559067–6788, Salagatan 23, Uppsala, Sweden, declare under our sole responsibility that the product Acetrack (model 1) to which this declaration relates is in conformity with the following standards:

→ Electromagnetic Compatibility (EMC) Directive 2014/30/EU
→ Radio Equipment Directive (RED) Directive 2014/53/EU

The authorized representative located within the Community is the same as the manufacturer mentioned above, Deversify.

## Battery and waste management

This device contains a non-user replaceable lithium-ion battery that should last the lifetime of the device. The full charge capacity of the battery decreases over time. Don't try to take apart or fix your Acetrack as it may damage the battery and cause injury, as well as void your warranty.

**Caution** The battery used in this device may present a risk of fire, explosion, or chemical burn if mistreated. The batteries are not user-replaceable and risk explosion if replaced with an incorrect type.

In order to protect the environment, please dispose of defective products with their rechargeable batteries as special waste at your local recycling center or return them to:

Deversify AB
Salagatan 23
SE–753 30 Uppsala
Sweden
