TIPS FOR THE BEST ROCKING EXPERIENCE

Back: For many of our customers, the Ready Rocker™ works best against a **comfortable but firm flat vertical surface**. Headboards, walls, benches, and chairbacks can all be great. The Ready Rocker™ can even replace that pile of pillows you used to need just to get comfortable! As a matter of fact, big fluffy pillows might steal away your bounce. Your back will thank you, even if your baby can't yet.

Seat: Make sure your chair or bench has **enough room for both you and your rocker** to sit securely. Standard seat depths work well for most individuals, but extra room/deeper seating makes rocking more fun!

Rocking Force: Some of us rock soft and others rock hard! For a gentler rebound, **angle your rocker** with the bottom away from the surface. For a bouncier rebound, shift the Ready Rocker™ to a more vertical position.

On the go: The Ready Rocker™ is great for parents and babies on the move. Not only can babies be rocked at the grandparents' house, but the Ready Rocker™ can **fit in most carry-ons and under most strollers**. Use it on a cross-country flight to quiet your crying kiddo and get a round of applause!

Rocking everywhere: Every baby is unique and so are you. Whether you like to rock in your bed, on the sofa in the living room, or in the booth of your favorite family restaurant, each experience is different. Various surfaces and settings will give you different sensations. We **recommend trying the rocker in as many places as you can**. Post pictures of your favorite and tag us!
