Strings For Hope Experiences

HOPE

Strings For Hope is a Nashville-based social enterprise. We utilize secondhand musical strings to provide second chances for survivors of addiction, domestic violence, and sex trafficking. Through employment in our Work Development Program, survivors receive supplemental income and learn job skills while in transition. Each of our Makers come directly from transitional housing facilities, and most of our strings are donated by musicians and music stores throughout the local Nashville area.

Our pieces embody everything that Nashville is:

kind
creative
musical

We provide a completely unique, memorable experience for your group that educates them on Nashville, sustainability, and the survivors we employ. Our sales directly fund our Work Development Program and each piece represents material saved from landfills.
