NOTE: We cannot guarantee the supplied fixings are suitable for all walls and ceilings. We recommend you consult a professional before you proceed.

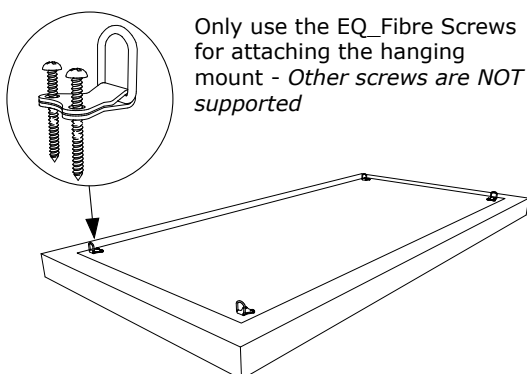

Package Contents

16 No. Assemblies,
Supports 4 Panels.

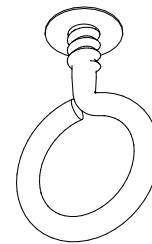

For Larger or custom panels you may need to increase the number of fixings

- 1 Position panel hanger mounts between 80mm and 250mm from panel edges
Measure and note positions of Hanger Mounts on panel.

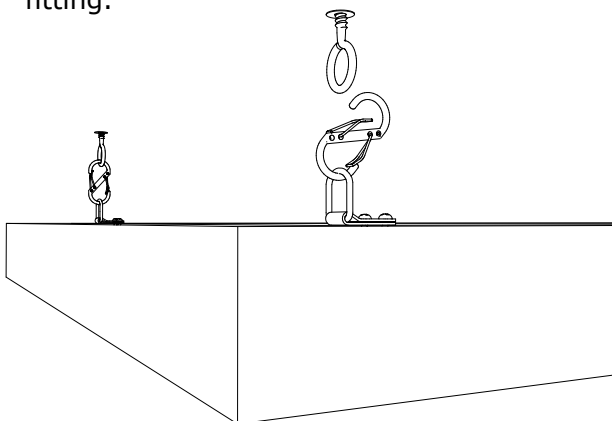

- 2 Transfer your measurements to the ceiling in the location you wish to fit the panel.
Determine positions for the Screw Eyes and fit them to ceiling

- 3 Attach S-Hook to Panel mounts.
Raise panel and attach S-Hooks to Screw Eyes.

Be careful not to pull down on panel when fitting.

Panels installed with Flexi Hooks will hang 75 mm below the ceiling.

To hang panels up to 1 metre below the ceiling use our "**Flexi Wire**" system
