

Overview

KK1 is an one tube system. Applications are pollutants degradation, air refreshment, air disinfection and odor elimination for industrial, commercial use.

Specifications

| Voltage | 120 VAC ± 10% 50/60Hz |
|--|---|
| Power Consumption | 3.2 W |
| Bentax® Tube Type | VTU (life time of 30,000 usage hours |
| Active Room Air Cleaning Capability*) | with Tube Type F up to 4000 ft ² with Tube Type E up to 2500 ft ² with Tube Type D up to 1500 ft ² |
| Air Volume In Duct Air Cleaning **) | with Tube Type F up to 5000 CFM with Tube Type E up to 3500 CFM with Tube Type D up to 2000 CFM |
| Weight | ~ 2.2 lb |

^{*)} Depending on air quality, air distribution, room ft³, and tube size.

Variants

| Feature | Plug C14 | Cable 3 poles | Base | Mount Plate | Mount Frame |
|---------|-------------|------------------|------|----------------|----------------|
| KK1-S | 1 | | 3 | | |
| KK1-SP | 1 | | | 4 | |
| KK1-SF | 1 | | | | 5 |
| KK1-C | | 2 | 3 | | |
| KK1-CP | | 2 | | 4 | |
| KK1-CF | | 2 | | | 5 |

Details

C14 power-socket (IEC 60320-1) with illuminated switch, fusebox and a NEMA 1-15 powercord (country specific)

Fusebox and a 3 poles powercable (1m) with prestripped wire-ends.

Base System mounted with hinge. Used when free access to the tube is ensured

Base System mounted with Mounting-Plate in air-duct applications

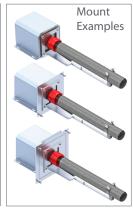

Base System mounted with Mounting-Frame for air-duct applications. Ideal for a quick access for Tube-Maintenance

^{**)} Depending on air quality and tube size.
