

Simple-to-install Online Connection Kit enables Remote Management* of Verdant energy management thermostats from any computer, tablet or smart-phone connected to the internet.

EFFORTLESS INSTALLATION

The Online Connection Kit installs in minutes. Simply connect the antenna module, ethernet cable and a power supply to the server and you are done.

INTERNET CONNECTION

The server connects to the internet through an open internet port on the property's. Once it connects to the internet, the server automatically starts communicating with Verdant's remote management website using a secure internet connection.

WIRELESS NETWORK

The antenna module creates a wireless network in order to communicate with Verdant thermostats. The wireless mesh network allows thermostat to communicate with the server without the need for any additional networking equipment.

NETWORK PROGRAMMER

Network programmer assigns a unique network ID to every Verdant thermostat on the property to ensure secure and reliable network communication. Every Verdant thermostat programmed with the network programmer automatically joins the wireless network on the property.

CONTENTS

- Server (OL-SR)
- Antenna Module (OL-WR)
- Antenna (OL-AN)
- Network Programmer (OL-PR)
- Power Supply (OL-PS)
- Ethernet Cable
- USB Cable for the Antenna Module
- USB Cable for the Power Supply
