

6000 ProLam Photo Laminator

Heavy-Duty 13" Pouch Laminator

The 6000 ProLam Photo Laminator has six silicon rollers that will deliver crystal-clear, bubble-free laminating. This system offers a variable speed and temperature control combination which allows for a fast lamination of all standard pouch thicknesses. The Photo Ready technology provides a balanced heat dissipation during the laminating process, making the 6000 ProLam Photo Laminator perfect for laminating photographs and other hard-to-laminate materials.

KEY FEATURES

- Six silicon roller thermal system
- Auto memory function
- Variable speed and temperature control combination
- Photo-ready technology
- Overheat protection
- One-year warranty

Exclusive "Flex-Tite" System:

Allows the rollers to adjust themselves and maintain the proper laminating pressure with different material thickness.
