

Wheelie Painters

Product Code EY01230

Suggestions

- Take the Wheelie Painters out and trundle them through puddles. See the patterns they make on the dry parts of the playground.
- Put long rolls of paper on the floor (old wall paper can be used). Dip the painter in the paint and then make a pattern twisting and turning as you go (you may need to tape some paper down to avoid slipping accidents).
- Create a large, enclosed canvas. Cover an area with paper, then surround it with bricks, blocks etc. The blocks will enclose the area. (Children will need to wear wellingtons for this). Dip the Wheelie Painter in different coloured paints and then create your own piece of modern art.
- Try using the Wheelie Painters in different textures to see if a pattern can be made. Long trays are useful for containing the materials, such as sand, magic snow etc. (Some materials may get stuck in the tyre treads)

Care Instructions

When the art work is completed wash the Wheelie Painters with a warm, soapy solution and leave to dry.

Warning: This product is not intended to bear the weight of a child and should not be sat or stood on. Using this product in any way other than intended may result in injury. Young children should be supervised at all times.
