

Mini Bricks

Product Code: EY04523

Introduction

N.B These are real bricks and as with all resources a risk assessment needs to be undertaken to ensure that they are appropriately and safely used.

Hints & Tips

- As there are real bricks they are fantastic for recreating pretend construction sites. Provide tools, sand, (wet and dry) clip boards, hi-vis vests, hard hats etc so that realistic role play may emerge.
- Wet sand makes super play 'cement'.
- These are real bricks, with all the same properties as larger ones so a real wall could be built using this resource.
- We observed children using the mini bricks in the sand pit as that provided a stable base. They happily constructed towers.
- Some children made pathways whilst enclosed areas with bricks (perhaps partaking in the enveloping schematic behaviour or lining up).
