

NEW UPGRADED EWS-PRO-2

EWS-PRO-2

Actual Size: 9"HX10"WX5"D

EWS-PRO-2 is the only professional grade portable lightning detection and early warning device available today and **NOW- IT'S ONLY BETTER!**

In a NEWLY DESIGNED rugged self-contained case, it has the electronic sophistication to detect lightning over 40 miles away, and to accurately track a storm's approach and departure with both it's large LED visual alerts and its audible 105db alert horn.

The LED alerts cover four ranges, 0-3 miles/3-8 miles/8-20 miles/20-40 miles, providing vital information when a storm is moving towards, away from or parallel to your location.(both Miles+KM's) Its audible horn is set by the user to any strike range to make a storm easier to monitor.

Not only does EWS-PRO allow for an informed decision as to when to evacuate the area, it also informs you when it is safe in the area to resume operations or outdoor activities again.
