

Adventure Quilt Quilt Along ... a Road Trip Quilt

1. The Quilt Along is for 12 weeks. There are 10 blocks, one a week for 10 weeks. Week 11 will be filler blocks and the last week is the setting pieces and putting the quilt together.

2. Every week, a link for the block of the week will be posted either on Kate's blog **or** on Tammy's blog. The block is FREE to download for 1 week. After midnight on the following Tuesday (after the block posts), the block will no longer be free. No Exceptions!

I get it, sometimes you get busy and you forget, or you are traveling or the dog ate your homework... Ok, well that one is actually true in my case! But we can't make exceptions. It is just not fair to the rest of the quilters.

3. After their "free" week, the blocks will be available for download on both Kate's website and Tammy's website for \$3.00. If you don't live in the US, keep in mind, that we don't sell off our websites to other countries so be sure you get that block while you can download it for free!

4. The last day to buy the blocks as single downloadable patterns is Wednesday May 15th. After that date, the blocks will only be available as part of the entire paper quilt pattern. The paper pattern will be available for \$36.00.

5. Each week on Wednesday, one of us will do a blog post about the block and have a link to the PDF so you can download the block instructions. On the following Saturday, one of us will be doing a Facebook Live video giving some tips and tricks or just talking about the block. We will let you know each week in the blog post where to go to find those videos!

Customer questions:

I am excited for the Adventure Quilt along but know I'll be out of town a few weeks during that time and unable to print. Is there a way to get the blocks on the weeks I will miss?

We are so thrilled you want to participate in the Adventure Quilt - A Road Trip Quilt-along! Blocks will be available as a free download for one week each. After that time period, each block will be available for individual purchase. The pattern will also be available for purchase as a complete BOM set.

While we appreciate that individual schedules may vary, to keep access equitable for all, blocks will be available as a free download only for the week specified. Please be aware that you can DOWNLOAD the block to any device, including your phone, for free during the free week, and then print at your leisure.

I hope this information helps. Happy and safe travels to you. We look forward to your participation and to seeing your project when you complete it.

My friend can download the patterns but doesn't have a printer. Can't I just make a copy for her?
