

## One-Cut

**HighMark Digital** launches its new One-Cut system, which provides a simplified three-step door fit system within existing jambs. With One-Cut, interior and exterior doors are precisely measured, cut and fit within minutes. The One-Cut system uses a door imaging system that produces an extremely accurate 3-D digital image, capturing the exact dimensions for the door jamb's key structural variances. This tool provides complete, self-guided instructions so that even a novice can take accurate measurements. **Circle 74**

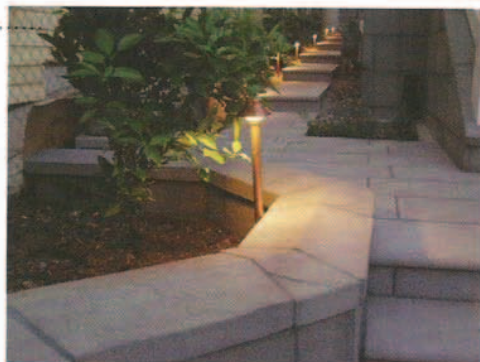

## MirrorMate Mirror Frames

**MirrorMate** frames has created a line of high-quality, custom-cut frames specially designed to adhere directly to the mirror currently on the wall. Easy to assemble, the pretaped frame is installed in a matter of minutes and gives the entire bathroom an up-to-date, finished look. Importantly, the custom transformation comes at a fraction of the cost of traditional framing or purchasing a whole new mirror.

If you would like to advertise in this special section, please contact Denise Singsime at 920-563-1680.

### Latitudes Equator® Hidden Fastener

Latitudes Equator hidden fastener delivers automatic, consistent alignment of deck boards for beautiful

results and big time savings. Y-shaped "gap wings" let boards expand and contract to prevent lifting. This unique fastener virtually eliminated pre-drilling and split ends and is engineered to work with Latitudes Equator slotted composite decking to yield a blemish-free surface.
