

HOSMART

Quick Start Guide

Overview

Note : 18650 battery is included. (3.7 V/ 2800mAh).

Setup & Operation

Setup

Step 1: Power

Plug the intercom into an outlet with AC adapter. The unit will turn on automatically. The unit can also run on an 18650 battery as backup for up to one week. Press the Power button to turn ON the intercom. Press and hold the Power button for 3 seconds to turn OFF.

Note: The red power light will flash with different rate while charging and low battery. The red light stays on when the battery is fully charged.

Step 2: Registration

The intercoms are plug and play. They have already be paired at the factory. You need to re-pair your intercom system when you have the new sub intercoms. The intercoms must be plugged in the next to each other when you pair the new sub-intercom. To register sub intercom with the main , begin by placing the Main into registration mode by simultaneously press and hold #0 and #3 on the Main unit until you hear a confirmation tone. Next, simultaneously press and hold the #0 and #3 buttons on the Sub intercom until you hear another confirmation tone. You will hear a third tone on the secondary intercom and the corresponding channel button will on indicating the assigned channel number.

Note: One master intercom may be paired with up to five secondary intercoms. Master units' default to channel #0. Secondary channel assignments (1-5) are automatically determined by the Master intercom during registration.

Operation

CALL

To make a call, Press the Call button first and then press the channel button that you want to communicate with to send a Call to another intercom. Press the Call button on another intercom to enter real-time two-way intercom mode. Press the CALL button again to end the call mode.

MONITOR

The "monitor" function would make one unit to monitor (hear) the other unit, like a baby monitor. While you are in Monitor Mode, you can only hear. If you want to talk, please Press the Monitor button again to exit Monitor Mode. To put a unit into monitor mode, press the Monitor button and one channel button that you want to be monitored. The unit will be continuously monitored by the other unit.

For example: If you want the Main unit to monitor(hear) Sub #1, please press the "Monitor" button and "0" channel button on the Sub #1. You will hear Sub #1 from the Main unit. **Note: While in Monitor Mode, the backlight Monitor LED will stay on . The backlight Monitor LED on the other unit will flash indicating that it is receiving the monitored transmission.**

GROUP (Group-Call Function)

Press the GROUP button to talk to all intercoms on the network simultaneously. The backlight indicator will turn on when Group mode is on. Press the Group button again to exit the Group mode and the backlight indicator will turn off. **Note: There is no need to press Group to answer.**

Volume Adjustment (VOL+/VOL-)

Press "VOL-" or "VOL+" to decrease or increase to the volume level.

Note : please adjust the volume while you are speaking to assure the level is to your satisfaction.

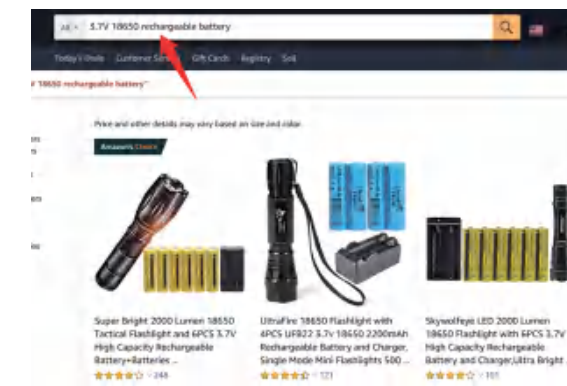

18650 Battery Specifications

CAUTION: 18650 battery is different from AA/AAA battery.

18650 battery,
3.6-3.7V,
2800-3000mAh
2.56in x 0.71in x 0.71in

Please search the key words on Amazon: **3.7V 18650 rechargeable battery**

Hosmart Digital Wireless Real-time Two-Way Intercom

INSTRUCTION MANUAL MODEL:HY619

Hosmart was founded in 2012 by a former group of Motorola engineers and designers. Now fast forward a few years and we are now the industries leader in home intercom and security products.

Our vision is to become the world leader in home intercom products and solutions. We design as well as engineer intelligent home intercom systems. We want to be your homes solution. Our company philosophy is to focus our efforts and energy based on our client's wishes.

We are confident that you will enjoy and be satisfied with our products. Any damage or malfunction of Hosmart product is 100% guaranteed to be replaced.

If you have any questions with the unit, please contact us by navigating to www.myhosmart.com, then click **Warranty**, and fill out the form, we will assist you as quickly as possible.

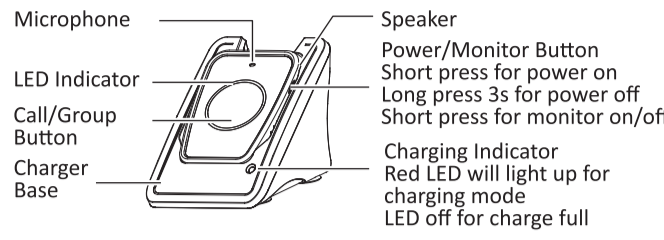

✉ E-mail: service@hosmartmall.com

☎ Phone: (502)-341-7705

OVERVIEW
HY619 is a wireless portable personal security communication intercom for office and home as well as any environment deemed essential to stay in constant communication. Great for indoors to monitor the elderly, babies, etc. The intercom has a range of 800 ft in an open space.

SUB

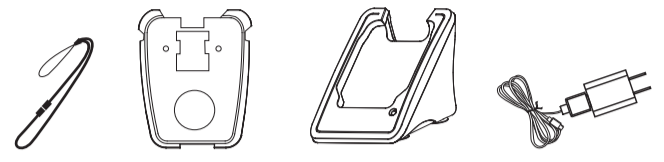

- DECT Technology
- IP65 Sub is Waterproof
- 2-way hands-free voice communication with speaker and microphone.
- Crystal clear connection

Microphone
LED Indicator
Call/Group Button
Charger Base

Speaker
Power/Monitor Button
Short press for power on
Long press 3s for power off
Short press for monitor on/off
Charging Indicator
Red LED will light up for charging mode
LED off for charge full

Accessories

- A breakaway lanyard cord
- Belt clip
- Charger base
- AC Adapter

FEATURES

The Sub unit has built-in lithium polymer battery with 3.7V/500mAh that can also be plugged into the charger base for charging.

Battery life:
Up to 10hrs for continuous monitoring
Up to 4hrs for continuous talking.

Note: You may put the Sub into the charger base and still maintain continuous monitoring or talking.

Place the Sub unit onto the charger base for charging. Approximately 3hrs. for full charge.

Note 1: You may need to charge the battery for the first time when the power of the Sub unit is dead, please put the Sub to Charger Base and then waiting for 5 minutes to activate the battery until the LED on the Charger Base comes on.

Note 2: When charging, please make sure unit faces outward. Please try to plug and unplug if the pendant can not be charged properly.

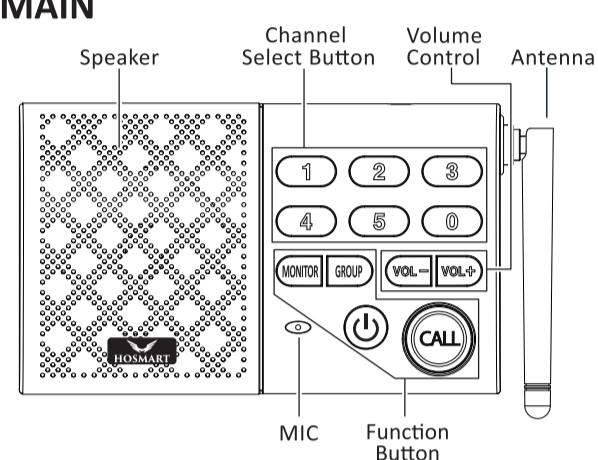

Power Button
Short press the Power button to turn on the Sub unit.
Hold Power button for 3 seconds to turn off.

Monitor
Press the Monitor, the Sub will be monitored by Main.
Note: The Sub unit only monitored by Main.

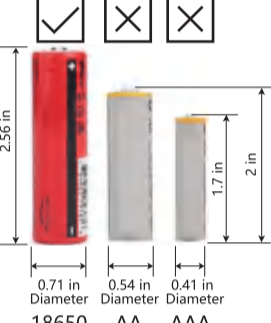

Call/Group Button
Short press for call; Long press 3s for Group call.

MAIN

Speaker
Channel Select Button
Volume Control
Antenna

Speak towards MIC.(The best talking distance is within 1 meter)

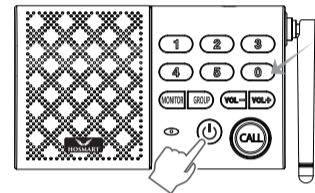

Power Button
Press the Power button to turn ON the intercom. Press and hold down the Power button for 3 seconds to turn the intercom OFF.

Low Battery Indicator
The red LED indicator will flash on the power button when the battery is low.

Volume Adjustment (VOL+/VOL-)
Press "VOL-" or "VOL+" to decrease or increase to the volume level.
Note: please adjust the volume while you are speaking to assure the level is to your satisfaction.

To choose different ring tones
Step 1: Press and hold the "VOL-" to enter the chimes select mode.
Step 2: Press "Group" to choose the ring tone you like.
Step 3: There are 10 different chimes you may choose. Exit this mode by pressing any of Channel button.
Note: Press the VOL+/VOL- to increase or decrease the volume level of ring tone during the chimes select mode.

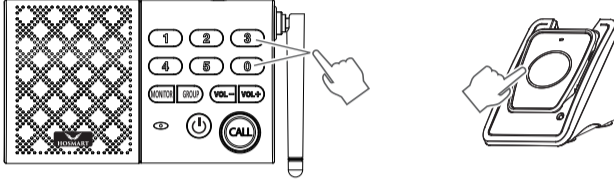

SETUP

- Plug the micro USB cable into the USB port on the back of unit, then connect to the AC adapter and plug into a power supply.

- Press the Power button to turn ON the intercom.
- Press and hold the Power button for 3 seconds to turn OFF.
Note: Main default channel, #0 will illuminate red.

Registration Mode

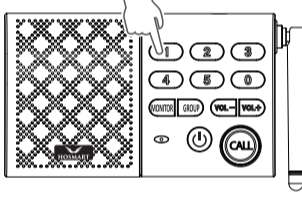

- The intercoms are ready to use, they have been paired at the factory. The new subs need to be re-paired when you add the new subs. The subs must be next to Main intercom when you pair the new subs.
- Hold the #0 and #3 button on the Main unit simultaneously. You will hear a Beep tone and the LED of Call button will begin to flash to show the registration states.

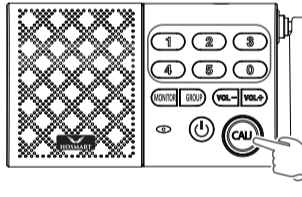

- Press the Group button for 3 seconds to register the Sub. Then you will hear a Beep tone that indicates the pairing was successful.

背面

Operation
Making a Call from Main Unit

- If only calling a single Sub, you may simply press the call button or the channel number on the main unit to initiate a call.
- If calling multiple Subs, you may press the call button and then press the channels you wish to communicate with. The channels will begin to flash to indicate which ones are available after pressing the call button. You may press the channel that you wish to contact to initiate the call directly.

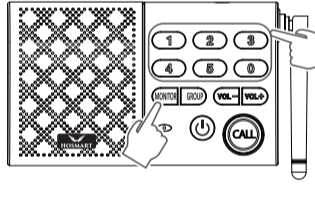

- Short press the Call/Group Button on the Sub unit to initiate an emergency call, the Main and all other Subs registered to the Main unit will be a ring, press the Call button to make a one to one call.
Long press the Call/Group button on the Sub unit to

initiate the Group call that all registered unit the Main will be answer the call directly.
Press the Call button on the Main and Sub unit to end the call.

Monitor

- Press the Monitor button on the Main unit and then press the Channel Number that you want to monitored (the channel number will start flashing to show all available channels after pressing the Monitor button) to initiate monitor mode.
- Press the Monitor on the Sub then the Sub will enter into monitor mode.
Short press the Group button to exit Monitor Mode.
Note: The Sub unit and Main unit can monitor each other. NOT between the Sub units.

Limited 12 months Warranty

EXCEPT AS PROVIDED HEREIN, SELLER MAKES NO EXPRESS WARRANTIES AND ANY IMPLIED WARRANTIES, INCLUDING THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE DURATION OF THE WRITTEN LIMITED WARRANTIES CONTAINED HEREIN, EXCEPT AS PROVIDED HEREIN. SELLER SHALL HAVE NO LIABILITY OR RESPONSIBILITY TO CUSTOMER OR ANY OTHER PERSON OR ENTITY WITH RESPECT TO ANY LIABILITY, LOSS OR DAMAGE CAUSED DIRECTLY OR INDIRECTLY BY USE OR PERFORMANCE OF THE PRODUCT OR ARISING OUT OF ANY BREACH OF THIS WARRANTY, INCLUDING, BUT NOT LIMITED TO ANY DAMAGES RESULTING FROM INCONVENIENCE, LOSS OF TIME, DATA, PROPERTY, REVENUE, OR PROFIT OR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, EVEN IF SELLER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

In the event of a product defect during the warranty period, contact the Seller to obtain an RMA#, and then return the product, along with the sales receipt as proof of purchase date, to Seller. The Seller will, at its option either correct the defect by product repair without charge for parts and labor; replace the product with one of the same or similar design or refund the purchase price.

All replaced parts and products and refunded products become the property of the Seller. New or reconditioned parts and products may be used in the performance of warranty service. Repaired or replaced parts and products are warranted for the remainder of the original warranty period. You will be charged for repairs on products no longer covered by warranty.

For all returns, please write down the RMA# and return date on the outside of the package. This will speed up the process of handling your return and issuing a refund or providing you with a replacement. Refunds are not issued for products no longer covered by warranty. The warranty will not cover replacements in cases where damage or failure is caused by, or attributable to:

- acts of God, abuse, accident, misuse, improper abnormal usage, failure to follow instructions, improper installation or maintenance, alteration, lightning or other instance of excess voltage or current,
- any repairs other than those provided by the Seller,
- consumables such as fuses or batteries,
- cosmetic damage,
- transportation, shipping or insurance costs,
- or costs of product removal, installation, set-up, service adjustment or reinstallation.

Our goal is for you to have the best possible experience with Hosmart. We appreciate receiving comments on any aspect of your experience with Hosmart or our products. Please contact us with any problems, prior to leaving any online feedback, so that we may address your concern.

We guarantee your complete satisfaction for this transaction. Please note that our office hours are 9:00 am to 5:00 pm (GMT+8) Monday through Friday. Offices are closed Saturday, Sunday and public holidays. We apologize for any late replies during holidays.

FCC STATEMENT
FCC ID: J311M-HY619
Power Supply:
AC Adapter: Input Voltage range is AC 100V-240V , Output:DC 5V/ 1A
18650 Battery: 3.7V/2800mAh (Main); 3.7V/500mAh (Sub)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The Hosmart Story

We lost our grandmother to an accident in her home. This compelled me to create Hosmart tools for the mature and elderly, in honor of our grandmother, to make homes smarter, safer, and easier to live in.

we hope Hosmart products will bring convenience and peace-of-mind to you and the mature and elderly in your life. We look forward to hearing how our Hosmart product has enriched the lives of you or your senior family members life easier and safer.

MULTI-CHANNEL FM WIRELESS INTERCOM

INSTRUCTION MANUAL

MODEL:HY777/HY787

Hosmart was founded in 2012, the brainchild of a group of friends designed Motola products. Fast forward a few years and we're now the industry leader in home intercom and security products. Our vision is to create a world global leader in home intercom solutions and products. We design and engineer residential intelligent home solution and intercom systems. Our company philosophy is to direct our efforts based on our client's wishes.

Hope you happiness and enjoy with our products. Any products problem or damage by delivery, we can offer a replacement to you.

If you have more question, you can also
E-mail to us: William@hosmartmall.com
or visit our Hosmart website: www.hosmartmall.com
or scan the QR scan.

Overview

The Intercom has up to a 1500 foot (500 m) range and allows multiple simultaneous conversations, using a 400-470 MHz secure digital radio link. The intercoms form an exclusive network and respond only to other intercoms in the network.

Thanks for purchasing this MULTI-channel FM wireless intercom . This is an "INDEPENDENT" intercom system. Simply plug the intercom into standard AC outlets, and you're ready to send and receive calls or to monitor the room where the stations are installed. All the safety and operating instruction should be read before the appliance is operated and retained for future reference.

Features

The intercoms use radio frequencies (462 MHz) to communicate with each other.

- 1 Call tone** --- Alerts other stations before you start talking.
- 2 Talk** --- light to let you know when you are transmitting to other stations.
- 3 Monitor** --- Lets you set the intercom for monitoring or other one-way communication. Infant and elderly monitor (10 hours once). Press any key can leave monitor mode.
- 4 VOX** --- Voice operated exchange. Press and hold down (keep pressing) the MONITOR botton for more than 5 seconds, the unit will in VOX mode. It will work in 24 hours per day. Press any key can leave the VOX mode.
- 5 Group** --- Group call or conference call, you can call all of the other stations in you home or office. Press and hold Group botton to talk , and

press and hold Group botton to answer.

Channel Switch --- Button lets you choose the stations you want to communicate with.

Channel Button --- Light to show you that the stations are on.

Power --- AC adapter only. You must use a Class 2 power source that supplies regulated 5V DC and delivers at least 800 mA with USB Plug. Adapter that does not meet these specifications could damage the intercoms or the adapter.

Installation

You can install your intercom almost anywhere there is a standard AC outlet. Or you may use Power bank if necessary. You can either mount the intercoms on the wall, or place them on a desktop or table. Then, simply plug them in and you are ready to communicate.

SETTING CHANNEL

- Follow these steps to prepare different stations to different channels for use. If you need to assign your station to CHANNEL 3 (e.g. Kitchen)
- 1) To turn on the intercom, the channel button 1 lights automatically (this is factory default channel). Sounds a BEEP tone. Set VOLUME to mid-range for comfortable listening.
 - 2) Press and HOLD down (keep pressing) the CHANNEL button "3" for more than 5 seconds.
 - 3) Until you hear a BEEP tone sounds. WHEN YOU ARE STILL PRESSING THE BOTTON (WITHOUT RELEASING IT) AND THE CHANNEL BUTTON "3" LIGHTS. That's it. Now you successfully set up this unit as CHANNEL 3. This unit is designated station for your current location(e.g. Kitchen). You can release you press once this successfully done.
 - 4) Once the designated station has been set, write the corresponding name on the station label. Writes name (e.g. Kitchen) on position 3 of the Stations label. This will help you to remember whenever you want to call (e.g.Kitchen), press channel button 3, and call, then, talk.
 - 5) If you need to set the other location (e.g.Garage) toCHANNEL 4. Fello the same steps as mentioned above to set up accordingly. Writes different names on proper position of the Stations label for easy reference.

CHANNEL	1	2	3	4
Units LOCATION	Bedroom	Barn	Kitchen	Garage

Operation

- Follow these steps to prepare the stations for use.
- 1.To turn on the intercom, The CHANNEL (Button) lights. Set VOLUME to mid-range.
 - 2.Set CHANNEL and CALLING for each station to the appropriate channel, as follows:
 - * If you want all the stations to communicate with each other at the same time. set all stations to the same channel.
 - * If you want to set up separate communication systems, set each station to a different channel.

Calling

- Follow these steps to call / talk to another station.
- 1.PRESS CHANNEL button to the channel of the station you are calling. If you are in the Kitchen (CHANNEL 3), and wish to call the garage (CHANNEL 4). Press Button 4.
 - 2.Press CALL. The talk indicator lights. Each station set to the selected channel sounds a tone. One minute after communication with the other channels, the operating channel goes back automatically to the channel assigned.

Talking

Press and hold down TALK. The talk indicator lights. Speak in a normal voice. Then, release TALK when you finish speaking and listen for the response.

Note: One minute after you stopped conversation, the kitchen unit channel (with CHANNEL 4 button lights - ON during your talking with CHANNEL 4) will automatically shift back to CHANNEL 3 (This is kitchen designated channel) as stand-by mode.

Listening

When you hear a call tone or a caller's voice, adjust VOLUME to a comfortable listening level.

IMPORTANT NOTE: ONLY ONE PARTY CAN TALK ON ONE CHANNEL AT A TIME.

Monitor

Pressing MONITOR has the same effect as holding down TALK. Use MONITOR to set the intercom for monitoring another station's location (such as a nursery or playroom), or when other one-way communication is needed. When you press the monitor key, this intercom will be monitored by other intercoms. Press down on the monitor button until the number button starts blinking. There is also a red light that comes on over the talk button when it is transmitting sound from your monitor.

VOX

Voice operated exchange. Press and hold down (keep pressing) the MONITOR button for more than 5 seconds, the unit will in VOX mode. It will work until you press any key to cancel it.

Using additional stations

You may add additional stations to the system. Any intercom that transmits on the same frequencies is compatible.

CAUTIONS

The following suggestions will help you care for your FM Wireless intercom so you can enjoy it for years.

- Keep the station dry, If the station gets wet, wipe them dry immediately. Liquids might contain minerals that can corrode the electronic circuits.
- Use and store the stations only in a normal temperature environments. Temperature extremes can shorten the life of electronic devices, damage batteries, and distortor melt plastic parts.
- Handle the stations gently and carefully. Dropping them can damage the circuit boards and can cause the stations to work improperly.
- Keep the stations away from dust and dirt, which can cause premature wear of parts.
- Wipe the stations with a damp cloth occasionally to keep them looking new. Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the stations.
- Modifying or tampering with the stations internal components can cause a malfunction and might invalidate the intercoms warranty and void your FCC authorization to operate it. If your intercom is not performing as it should, take it to your local store for assistance. OR, CONTACT US AT: e-mail: william@hosmartmall.com

THE FCC WANTS YOU TO KNOW

Your intercom might cause TV or radio interference even when it is operating properly. To determine whether your intercom is causing the interference turn off the stations, if the interference goes away, your intercom is causing the interference. Try to eliminate the interference by :

- Moving your stations away from the receiver.
- Connecting your stations to an outlet that is on a different electrical circuit from the receiver.

If you cannot eliminate the interference, the FCC requires that you stop using your intercom. Changes or modifications not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

Troubleshooting Guide

Problem	Possible Solution
Channel Button (Power indicator) does not light.	-Check the AC power cord; is it connected properly?
Cannot receive response.	-Is intercom set to designated channel? -Release TALK when not talking. -If the intercom is monitor pressing TALK or CALL. -Press the Vol+ increase sound level.
Cannot talk to other intercom.	-Are both intercoms set to the same channel? -Wait until other user has finished talking.
Strong, continuous "beep" sound.	-Move intercoms further apart to eliminate audio feedback.
Unit doesn't work.	-Try units in a different location. If the units work in different location but not in your home, there is a problem with your home concrete wall.
Static noise or cannot communicate.	-All unit should be set to same CODE & same CHANNEL (refer to instruction manual page. 8). -Change locations by using Mobile Phone Power Bank, moving to other locations for better reception and transmission.

Specifications are typical; individual units might vary. Specifications are subject to change and improvement without notice.

UNNECESSARY NOISES FROM NEARBY DEVICES: (CTCSS)

1/2/3 Code:

If your intercom system setting is at "1" code and get lot of outside unnecessary voices or noises; then, you may change your intercom system (all units) to "2" or "3" code in order to avoid unnecessary noises from nearby devices.

Note:

Monitor function---- For continuous talk, or room monitoring. For any other questions, please contact us at e-mail: service@hosmartmall.com

OVERVIEW

The intercom has a range of 1/2 mile and is able to simultaneously function multiple conversation. The intercom is a half duplex TDD FM transceiver that it can only work alternately in the transmitting or receiving state.

FEATURES

ANT(antenna)

Receiving and emitting FM wireless signal.

MIC

Talk to MIC 30-40cm away from it with normal volume.

DIGITAL CODE(A/B/C)

It can reduce external interference by changing different digital code.

Note: CODE key is on the back of device and beside power port.

CALL

To make a call, select the channel you want to communicate with and press "CALL".

TALK

Press and hold "TALK" when speaking. Release "TALK" to listen for a response. The indicator becomes OFF, the voice information is be sent out.

MONITOR

Pressing "MONITOR" puts the unit in monitor mode, and the unit will be monitored by other units, that have been set to the same code and channel, for 24 hours. Press any key to exit monitor mode.

GROUP (Group-Call Function)

Press and hold "GROUP" to talk to all intercoms simultaneously, even the device in different channel code.

0-9 channel number

Set the channel for each intercom. The default channel is #1. Set the channel by pressing and holding one of the channel buttons (1 thru 9 and 0) for 3 seconds, until you hear the **Beep** and the channel button lights. Set

channels on additional intercoms using the same steps. Intercoms may be set to the same or different channel numbers depending on intended use.

Volume Adjustment (VOL+/VOL-)

Press "VOL -" or "VOL +" to decrease or increase the volume level. A tone will sound when you have reached the maximum or minimum limit.

Note: To choose different ring tones

Step 1. Press and hold the "VOL +" and then press the "VOL-" to enter the ring tone select mode .

Step 2. Press "VOL +" or "VOL -" to choose the ring tone you like. There are 4 kinds of tones for you to choose.

Step 3. Press the "VOL +" and "VOL -" buttons simultaneously to exit ring tone setup mode.

SETTING CHANNEL

Please set different channel for different devices by following steps :

1). Use the AC adapter to plug the intercom into a power outlet.

2). Set the channel for each intercom. The default channel is #1. Set the channel by pressing and holding one of the channel buttons (1 thru 9 and 0) for 3 seconds, until you hear the Beep and the channel button lights. Set channels on additional intercoms using the same steps. Intercoms may be set to the same or different channel numbers depending on intended use.

3). Please keep digital code consistent in setting channels, for example: all equipment uses code A, and please record the channel code of each office/room, to enable you to rapidly and accurately call others.

Channel	2	3	4	5
Code	A	A	A	A
Device Location	General Manager Room	Financial Department	HR Department	Sales Department

USING ADDITIONAL STATIONS

You may add additional stations to the system as long as they transmit on the same frequency.

OPERATION

Receive a Call

A device will emit a series of rings when receiving a call from another device. Press and hold the TALK button to answer the call, and speak 30-40 cm toward the MIC in a normal voice. The blue LED indicates that Talk mode is active. Release the TALK button to listen for a reply. All devices set to the same channel will receive the transmission.

Make a Call

Select the desired channel by pressing and releasing a channel button, then press CALL. This will ring all devices

set to that channel. Continue the conversation as described in “Receive a call”.

Notes:

- *You will not be able to hear a transmission from another device while you are pressing the TALK button.*
- *When talk ends, the channel of calling unit automatically change to the originally set channel after 1 minute.*

CAUTIONS

The following will help you maintain your wireless intercom for years to come.

- * Keep stations from getting wet. It is not waterproof.
- * Keep stations in a control environment. No extreme temperatures.
- * Handle the stations with care. No dropping, throwing or roughness.
- * Keep stations clean from dust and dirt for this can damage the circuit board.
- * Do not use chemicals or cleaning solvent. Simple use a damp cloth to clean the station.
- * Modifying or tampering with the stations internal components can cause it to malfunction as well as null or your warranty.
- * If your product is not working as advertised then return it to local retailer for assistance or contact us at our e-mail.

THE FCC WANTS YOU TO KNOW

Your intercom may cause TV or radio interference. To be certain turn off your intercom and check your TV or radio on its performance. If still receiving interference, rest a sure it is not your intercom. You may try to eliminate interference by:

- * Moving your stations further away from the receiver.
- * Moving your stations further away from your TV or radio.

If these options do not solve your problem the FCC requires you to stop using your intercom. Change or modifications not approved by the party responsible for compliance could void the user authority to operate the equipment.

Troubleshooting

Problem	Possible Solution
Power light does not turn on	-Is AC adapter and usb cable connected properly?
Can not receive response	-If the intercom is set in Monitor Mode. -You will not be able to hear a transmission from another device while you are pressing the TALK button.
Can not talk to other intercom	-Press and hold down TALK to communicate after other unit finished talk.
Continuous beeping sound	-Are the intercoms too close causing Audio feedback?
Unit does not work	-If the walls are too thick or if the building is mental causing no signal to pass through?
White noise, can not communicate	-Change location by using Power Bank, moving to other locations for better reception and transmission.
Intercom is not getting expected transmission range	-Keep intercom away from metal objects and electrical wiring.
Static and feedback is heard in intercom	-The intercoms are too close to each other. A cordless phone, cell phone or other radio devices can also cause static.

Specifications for Individual units may vary.

Specifications are subject to change and improvements without any notice.

UNNECESSARY WHITE NOISE FROM NEAR BY DEVICES:(CTCSS)

A/B/C Code:

If receiving unnecessary noise on setting A or C code. You may switch your intercom system (all unites) setting to B or C code.

Note:

Monitor Fuction- For continuous talk or room monitoring which can last up to 24 hours.

Limited 12 months Warranty

EXCEPT AS PROVIDED HEREIN, SELLER MAKES NO EXPRESS WARRANTIES AND ANY IMPLIED WARRANTIES, INCLUDING THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE DURATION OF THE WRITTEN LIMITED WARRANTIES CONTAINED HEREIN, EXCEPT AS PROVIDED HEREIN, SELLER SHALL HAVE NO LIABILITY OR RESPONSIBILITY TO CUSTOMER OR ANY OTHER PERSON OR ENTITY WITH RESPECT TO ANY LIABILITY, LOSS OR DAMAGE CAUSED DIRECTLY OR INDIRECTLY BY USE OR PERFORMANCE OF THE PRODUCT OR ARISING OUT OF ANY BREACH OF THIS WARRANTY, INCLUDING, BUT NOT LIMITED TO ANY

DAMAGES RESULTING FROM INCONVENIENCE, LOSS OF TIME, DATA, PROPERTY, REVENUE, OR PROFIT OR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, EVEN IF SELLER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

In the event of a product defect during the warranty period, contact the Seller to obtain an RBM#, and then return the product, along with the sales receipt as proof of purchase date, to Seller. The Seller will, at its option either correct the defect by product repair without charge for parts and labor; replace the product with one of the same or similar design or refund the purchase price.

All replaced parts and products and refunded products become the property of the Seller. New or reconditioned parts and products may be used in the performance of warranty service. Repaired or replaced parts and products are warranted for the remainder of the original warranty period. You will be charged for repairs on products no longer covered by warranty.

For all returns, please write down the RBM# and return date on the outside of the package. This will speed up the process of handling your return and issuing a refund or providing you with a replacement. Refunds are not issued for products no longer covered by warranty. The warranty will not cover replacements in cases where damage or failure is caused by, or attributable to:

- (a) acts of God, abuse, accident, misuse, improper abnormal usage, failure to follow instructions, improper installation or maintenance, alteration, lightning or other instance of excess voltage or current,
- (b) any repairs other than those provided by the Seller,
- (c) consumables such as fuses or batteries,
- (d) cosmetic damage,
- (e) transportation, shipping or insurance costs,
- (f) or costs of product removal, installation, set-up, service adjustment or reinstallation.

Our goal is for you to have the best possible experience with Hosmart. We appreciate receiving comments on any aspect of your experience with Hosmart or our products. Please contact us with any problems, prior to leaving any online feedback, so that we may address your concern.

We guarantee your complete satisfaction for this transaction. Please note that our office hours are 9:00 am to 5:00 pm (GMT+8) Monday through Friday. Offices are closed Saturday, Sunday and public holidays. We apologize for any late replies during holidays.
