

eco-fin[®]

eco-friendly paraffin alternative

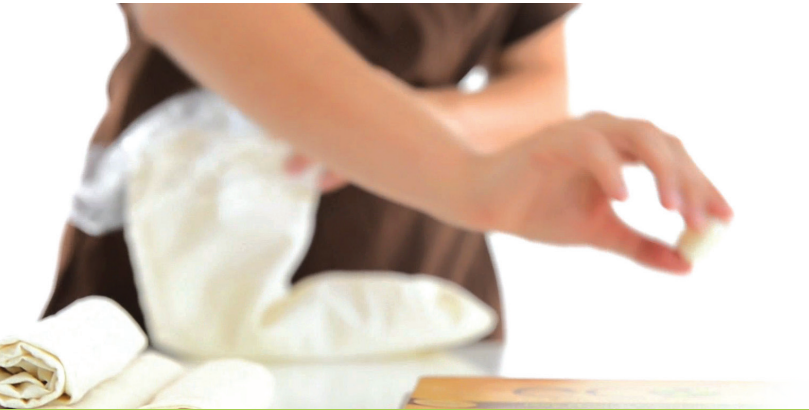

- Fast, easy, economical
- 100% plant-based, with shea butter and essential oils—no petroleum, chemical dyes, or synthetic fragrances
- Little waste (no product to throw away, as the remaining product is used to perform a massage on the client)

The Luxurious, Eco-friendly Alternative to Paraffin

FOLLOW THESE EASY STEPS

TO WARM ECO-FIN IN YOUR TOWEL CABINET

For 4 more ways to warm Eco-fin, visit universalcompanies.com/ecofin

STEP 1

Drop one or half of one Eco-fin cube into the biodegradable liner and washable sleeve.

STEP 2

Roll sleeve and liner and place in hot towel warmer.

STEP 3

Slip client's hands or feet into liner, massaging warm Eco-fin into skin. Place hands or feet into pre-warmed Herbal Eco-Mitt or Bootie, or into electric mitts or booties.

STEP 4

Remove liner from hands or feet and massage remaining Eco-fin into the skin, leaving it hydrated and silky soft. End with a spritz of Eco-fin Finishing Spray. Buff with a soft towel to remove excess oils.

- Offer Eco-fin as a stand-alone service with an enhanced massage or reflexology treatment.
- Use as an add-on service to maximize profitability. It only takes minutes!
- Replace your paraffin treatments with easy-to-use, affordable Eco-fin.
- Keep it clean with this sanitary, single-use, disposable product—no mess or fuss.
- Eliminate waste. Prepared Eco-fin can be removed from your towel warmer, and then reheated as necessary.
- Save money, with no need for additional massage lotion or oil.
- Use one of nine available scents or unscented. You can even customize your own blend by adding ESS[®] essential oils or blends to unscented Eco-fin.
- Offer free Eco-fin treatments with selected services on slow days.
- Create promotions that maximize profitability and drive revenue.
- Get staff training, right at your fingertips 24/7.
