#### SERVICE TIPS

- The AquaBoost Exfoliation Enhancement is intended to be added to an existing facial for added exfoliation, decongestion, and hydration.
- It is recommended that this AquaBoost Enhancement replaces the exfoliation in your current protocol.
- The enhancement begins at the exfoliation step of your current protocol.
- Prepares the skin to receive intense hydration by exfoliating the skin and removing impurities safely and gently.
- It is strongly recommended to wear gloves during the service.

#### HEMOCARE RECOMMENDATIONS

It is recommended guests go home with or replenish the following to maintain results

- Cleanser
- Purification and/or Exfoliation Product
- Targeted Treatment
- Moisturizer

#### POST TREATMENT INSTRUCTIONS

- Wear Sunscreen Daily
- Resume your normal skin care next day
- Avoid exfoliation for the next 7 days.

# Treatment Preparation

## AquaBoost Exfoliation Boost

STEP	PRODUCT NAME	INSTRUCTIONS
SKIN ANALYSIS		Analyze the skin and select serum <ul style="list-style-type: none"> <li>• Serum 1 - Dry, Normal, Combination Skin</li> <li>• Serum 2 - Oily, Congested, Acneic / Acne Prone Skin</li> </ul>
SERUM 1 OR SERUM 2	Cleanse & Exfoliate OR Deep Cleanse	Perform 1 pass with Serum 1 or 2: <ul style="list-style-type: none"> <li>• Beginning at the chin, move in upward and outward motions.</li> <li>• Hold the skin taut with one hand while gliding with the other to ensure a smooth glide without skipping or rapid release.</li> <li>• Follow the grid provided in the Training Manual for added guidance.</li> <li>• Spend additional time as needed in areas of increased congestion.</li> </ul> *Approximately 3 fl. oz of serum will be used.
