

SKIN PERFECTING TREATMENT

Cellulite Be Gone Treatment

Say "goodbye" to the appearance of cellulite with this skin purifying treatment.

Treatment time:

30-45 min

Suggested price:

\$100-\$150

Cost per treatment

\$10.79

SAMPLE MENU DESCRIPTION:

Treat yourself to a skin-loving blend of rich, therapeutic oils with this deeply relaxing cupping massage service. This luscious treatment uses modern cupping techniques and an exfoliating skin buffer to relax muscles, release tension, and slough away impurities, leaving the skin moisturized and looking smooth.

What you'll need:

Fight the appearance of cellulite and stretch marks with the Bellabaci Cellulite Be Gone Professional Massage Cupping Oil. This rich, fragrant blend of coconut, moringa, marula, and citrus oils is designed to be used with Bellabaci cups. Not suitable for pregnant or breastfeeding clients. Paraben-free. Certified cruelty-free and vegan by PETA. Beauty Without Cruelty certified.

N3583

What they'll want:

Cellulite Be Gone • N3632

Detox Pure Essential Complex, 15 ml • N3637

Bellabaci Body Cups for Cupping Therapy • N3580

Protocol

1

PREPARE SKIN

Where possible, let the client shower and use the Kese Skin Buffer. Explain to client as follows: Soap up and proceed to rinse off all soap. Wet the Kese, turn off water, slip hand inside buffer, and use circular motions to exfoliate the skin. When done, open taps and rinse off loosened dead skin cells.

2

If there is no shower facility, use the Kese on your client as you would a dry brush to stimulate microcirculation on the buttocks, thighs, and legs, working towards the heart.

DETOX COMPLEX

Follow by applying 2 drops of Detox Complex to your hands and press onto the treatment areas and feet.

3

CUPPING AND MASSAGE

Use effleurage to apply the Cellulite Be Gone Professional Oil to the left buttock, thigh, leg, and foot. Knead the upper thigh and buttock using hand massage.

4

CUPPING CONTINUED

Using the soft cup with light suction, drain along the lymph paths on the thigh and buttock, taking care to lift the cup slightly without losing suction. Cellulite can be painful, especially on the inside of the thigh. If it is a large treatment area, using the Super Cup with its lightest suction may be a better choice.

Follow by using circular and zigzag motions, and then a fish bite movement, in which you squeeze and release the cup, working towards the heart.

END SERVICE

End with effleurage and repeat on the right side of the body. Wrap the legs with a plastic sheet or space blanket and towels and proceed to perform a scalp or foot massage/reflexology.

Use a warm towel to remove excess oil and perspiration.
