# Protocol

1

## PREPARE

Preheat your towel cabi for at least one hour before your first treatment. Put 1 mitt liner into each sleeve, drop the Eco-Fin cube into liner, and roll sleeve over itself.

2

## HEAT

Place the prepared roll inside the hot towel cabi for a minimum of 25 minutes. Warm with dry heat only. Once the cube is melted, you may unroll the sleeve and slide it onto your guest's hands.

3

## MASSAGE

Once the mitt is on, help disperse the rich emulsion evenly by massaging it over the hands. After 10-15 minutes, remove the mitts and liners and massage the remaining product into hands or forearms.

4

## FINISH

Place a hand towel under the treated hand, leaving enough free to wrap and dry the arm. Using the Eco-fin Pure Aloe Finishing Spray, lightly spritz the treated area. Massage and buff with a hand towel until skin appears dry, allowing the oils to disperse.

5

## NECK WRAP

After the service has been completed, offer your client a Spa Moments neck wrap. Warm or chill to relax tight, stressed neck muscles.
