

DRY FLOTATION THERAPY

Nuvola Relaxation Treatment

Pair a therapeutic massage with the benefits of a float service. Create an intensely relaxing treatment for clients by combining two experiences that are proven to increase serotonin and relieve stress.

Treatment time:

60-90 mins.

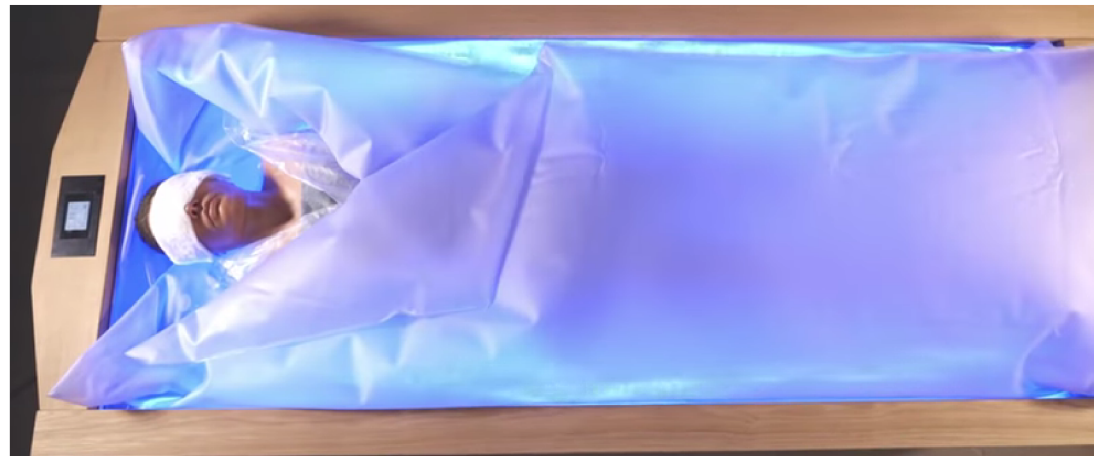

Suggested price:

\$150-190

Cost per treatment:

\$75-95

SAMPLE MENU DESCRIPTION:

Combine an old favorite with soon- to- be new favorite when you experience a dry float service after your massage. Dry flotation allows you to benefit from a zero gravity environment that promotes a deep state of relaxation.

Your massage will prepare you and the float will take you to new depths of calm.

What you'll need:

Get superb glide without greasy residue! Made with rich plant oils plus arnica extract, Pure-ssage Essential line offers exceptional quality.

Star ingredients also include skin-loving oils such as sesame, jojoba, and evening primrose.

Protocol:

STEP ONE: WELCOME THE CLIENT	<p>Ensure Nuvola platform is at highest level and table is prepped with disposable sheet. Client should have removed clothing and personal possessions or jewelry that could damage the Nuvola membrane.</p>
STEP 2: MASSAGE	<p>Perform gliding body massage using 20 or 30ml of oil or cream selected. Can also incorporate scalp massage and aromatherapy into treatment to promote additional relaxation. When ready, place a cool cloth over the eyes and under the knees and prepare client to lower into the Nuvola for flotation.</p>
STEP 3: FLOTATION AND CLOSURE	<p>Wrap the client in the wings of the Nuvola, ensuring they are not too high on the face for client comfort.</p> <p>Using the control panel select your table options and 30 minutes for floatation time and press the start button.</p> <p>Let client know the platform will begin to lower beneath them.</p> <p>Once floatation time has ended the Nuvola platform will automatically raise. Assist the client to a seated position and off the table, allowing them time they need to get up.</p>
