Nuvola is an innovative and patented system to regenerate body and mind.

Developed on the basis of the broad scientific research on the benefits of floatation in water, Nuvola is an effective and versatile solution for Dry Float Therapy: the body floats over 105 gallons of warm water, without the need to get undressed or wet.

## SAMPLE MENU DESCRIPTION:

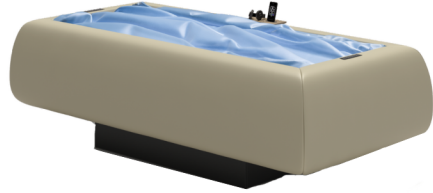

Feel your stress float away as you relax and experience zero gravity warm water immersion without getting wet.

That's right! Our dry float service has all the benefits that come with floating but in a semi-enclosed tank where you are laying on waterproof layer over a warm water bath.

# Protocol:

## STEP ONE: CLIENT PREPARATION

Have the client remove their shoes and any accessories that may damage the bed or membrane. Make sure the platform is raised to the highest setting and assist the client onto the Nuvola bed.

Show the client the control pad and how to set their time and session preferences. Using the side arrows on the hourglass icon, client can select their treatment time duration.

Once they press start, the platform will begin to lower into the flotation position. They can also press the icon of the seated person with headphones to select one of the themed meditation, music, or color therapy programs.

Once client is prepared you can leave them to start and customize the program as they wish.

Client can press STOP at any time on the keypad to cancel the session and return the platform to the highest position.

Clients can also use the flotation without any of the pre-programmed options if they wish to use their own music or devices.

## STEP 2: ENHANCEMENTS

You can also enhance the flotation sessions by providing the client with an eye mask to block light, as well as noise cancelling headphones.

The Nuvola table comes standard with regular over the ear headphones.

Aromatherapy or essential oil diffusers also adds to the client experience.

## STEP 3: SESSION COMPLETION

Once the session is over, assist the customer off the Nuvola table assuring them to take their time if needed. Can offer them additional relaxation services such as hot tea.
