

Operating Instructions

- 1 Place the juicer on a level and secure surface.
- 2 Slice your chosen fruit in half.
- 3 Place cup or glass directly below the drain spout to collect the juice.
- 4 Raise the handle to the upright position and place one of the fruit halves onto the strainer (with the cut side of the fruit facing down) Push the fruit down slightly to secure its position.
- 5 Lower the handle to squeeze out the juice.
- 6 Repeat this process with as much pieces of fruit as needed to obtain the amount of juice that you desire.

Enjoy!

Care and Maintenance Instructions

- ✓ The stainless steel strainer and basket can both be removed for cleaning and are dishwasher safe. To remove the basket, turn it clockwise (until the indent lines up with the front of the product)
- ✓ We recommend cleaning the juicer and its parts after every use. The juicer should be wiped with hot soapy water, rinsed, and thoroughly dried.
- ✓ The main steel shaft and levers can be periodically lubricated to prevent stiffening. Cooking oil or vegetable oil may be used.
