

StrawSave Wholesale Pricing Sheet

At StrawSave, we provide Cafés, Restaurants, Bars, and Clubs with wholesale, sustainable, and beautifully designed alternatives to single-use plastic straws.

In just the U.S. alone, [500 million straws are used every single day](#). [One study](#) published earlier this year estimated as many as 8.3 billion plastic straws pollute the world's beaches. At StrawSave, we help businesses transition away from single-use plastic, to sustainable, affordable alternatives. We specialize in **custom logo branding**, so that each straw can fulfill an additional benefit as a marketing tool. Below, you will find out wholesale pricing for StrawSave's Paper, Bamboo, and Metal Straws.

Why Choose StrawSave?

- 1. Custom-Branding.** While it's easy to find companies out there that sell straws, there's very few that provide custom logo branding on their straws, especially at our prices! Not sure what design is best for your company? Send us your logo and our graphic designer will put together free design mockups for you to choose from!
- 2. Sustainability.** Not only are our straws a sustainable alternative to plastic, but we're also laser focused on reducing our carbon footprint throughout the production process. We've also partnered with OneTreePlanted, planting trees as part of every purchase at StrawSave.
- 3. Price & Quality.** We use only the highest-grade material for our bamboo, stainless steel, and paper straws. Furthermore, our prices are among the most competitive in the industry, and our shipping is completely free!

Metal Straw Product Details

- Our stainless steel metal straws can be safely reused for 10+ years; each straw can potentially replace thousands of single use straws.
- We also offer a variety of different colors: **silver, gold, rose gold, purple, blue, black, and rainbow.**
- Default size is 215mm x 6mm, but thickness and length can be customized upon request
- Available in **bent** or **straight** ended straws.
- See more at our [direct-to-consumer page](#).

Paper Straw Product Details

- Biodegradable paper is our most affordable option, and generally easier for venues to use because they do not get cleaned and reused.
- Color and size is very customizable, however the default is 200mm x 6mm.
- After you send us your logo, we will offer a few design options for you to choose from.

Bamboo Straw Product Details

- Bamboo is our most sustainable straw option. Ours are handmade by fairly-paid bamboo farmers in Indonesia, from bamboo plants that grow up to 3ft a day, with very little to no water.
- Bamboo is 100% biodegradable and can last months with proper cleaning.
- After you send us your logo, we will offer design options for you to choose from, for your custom engraving.
- See more at our [direct-to-consumer page](#).

To place an order, let a StrawSave representative know your desired quantity and material, and they will email you a payment link. Alternatively, you can buy online, directly from our wholesale product pages: [Bamboo](#). [Paper](#). [Metal](#).

StrawSave

REUSABLE STRAWS

WHOLESALE ORDERING PROCESS

1. To place an order, let a StrawSave representative know your desired quantity and material, and they will email you a payment link.
2. After a payment is received, we reach out to you asking for specifications on your order (confirming material, length and width, color, etc.).
3. We will also ask for a copy of your logo to be sent over.
4. We will produce your custom-branded straws
5. We ship your straws directly to your door!
