

Bond It Window & Door Plus is a high-performing premium grade neutral-cure silicone for interior and exterior applications. Remains permanently flexible, has superb adhesion properties and is tough enough to stand up to the harshest elements and providing a superior weather resistant seal.

Product Use

Ideal for sealing on windows, doors, trim, vinyl siding and weather sealing and flexible jointing of in-fill panels. Good adhesions to fiberglass, glass, many plastics, aluminum, metals, masonry, plaster, stucco, vinyl, and wood.

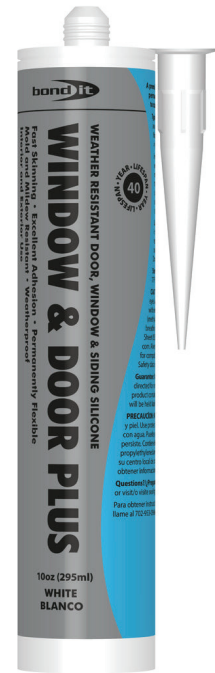

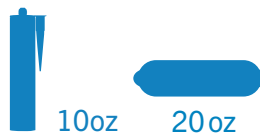

Application / Instructions

Surfaces must be clean, dry, and free of dust or grease. When sealing deep joints use foam backer rods to reduce wastage. Cut the tip of the cartridge without damaging the threaded area. Screw on nozzle and cut at an angle of 45° to an opening slightly larger than the gap to be sealed. Apply using a standard sealant gun and tool down within 10 minutes using the appropriate tool. After use, clean tools with mineral spirits before the product dries.
