

### Cool Roof Rating Council (CRRC) Product Rating

Established in 1998, the Cool Roof Rating Council is a 501(c)(3) nonprofit organization that develops accurate and credible methods for evaluating and labeling the radiative properties (solar reflectance and thermal emittance) of roofing and exterior wall products. The CRRC also provides education to the public on how solar-reflective roofs and walls can help improve building energy efficiency, increase occupant comfort, mitigate the Urban Heat Island effect, and reduce greenhouse gas emissions.
