INTRODUCTION

Taylor Toolworks and the Guild Partners Program

Welcome! We are happy that you've considered letting us be a part of your guild. We value a lot of things, but above all is the art and craft of woodworking. We've started the Guild Partners Program out of that very principle- by partnering with woodworking guilds just like yours, we hope to supply current and future generations of woodworkers with the help they need to build the projects they love.

WHY PARTNER WITH US?

The logo for Wood Owl, with "WOOD" in black and "OWL" in red, both in a bold, sans-serif font, set against a white background with a red border.A close-up photograph of a black metal drill bit with a double-flute design, positioned as if about to drill into a piece of light-colored wood. Wood shavings are visible around the bit. The image is partially obscured by a circular graphic element on the right side of the page.

Partnering with us offers your guild several advantages. First and foremost, we want to help you grow your guild. Woodworking as we know it relies on the interest of younger people to stay alive- and we want to help you bolster your numbers. In addition to offering support for your guild and tackling creative ways to get members in your door, we also want to make sure you and you members have access to the tools they need! Partnering with us allows your members a permanent discount on our website and gives your guild access to wholesale-priced discounts to make sure your guild is stocked with tools need for workshops, classes, and general use.

OVER 3,500 PRODUCTS

We carry a wide line of products from some of the world's top suppliers: sharpening, carving, measuring & marking, hand tools, woodturning, blades, drilling, abrasives, first aid, dust collection, clamps... the list goes on.
