

BORN CHILDRENS' STOOL

The Born childrens' stool is a design that is distinguished by both its playfulness and its structural quality. Exposed wooden dowels and mortise and tenon joints combine to create an original piece that allows the multiplicity of functions that can happen when it is being used. Overall, the Born collection shares this nature of returning to the essence of things.

It can be made in any of our wood options. Featured here in Iroko Teak.
