

## EELIS CHAIR

The Eelis chair features a sturdy construction that includes traditional woodworking joints such as wedged mortise and tenon for the front legs, ensuring stability, while the rear legs utilize classic mortise and tenon assembly, providing a solid foundation.

The front legs were crafted with an organic principle, embodying furniture of the highest standards. Additionally, the arms were meticulously carved by hand, infusing the piece with artisan craftsmanship. Available with or without armrests, Eelis effortlessly adapts to various spaces and preferences, making it a statement piece of enduring beauty and functionality.
