

## MUN DAYBED

The Mun daybed stands out as a unique piece amongst our products. It is carefully designed to reveal its wedged mortise and tenon joints, which make it a strong and sturdy structure. Yet the disposition of its components make it a light –almost floating– piece of furniture.

It can be made in any of our wood options and we show only some of the different upholstery options available, so feel free to ask for other options. Featured here in White Oak.
