

ZOE BAR CABINET

The Zoe bar cabinet combines simplicity of form with multiplicity of function. It is designed to store glasses and bottles of different sizes. It is built with miter joints reinforced with loose tenons, through mortise and tenons, wedged mortise and tenons, and wooden drawer slides. The result is a piece of furniture that embraces its materiality and structure.

It can be made in any of our wood options. Featured here in Red Oak.
