

CONTENDER

MODULAR SPORTS FLOOD LIGHT

170 LM/W

WORLD CLASS SPORTS LIGHTING

Description

The **Contender Sports Flood Light** is the swiss army knife of sports lighting. Featuring a modular design that allows the connection of up to three separate modules, each rotatable 360°, the Contender is a versatile luminaire that can handle a huge variety of projects. IP66 and IK10 ratings make it ideal for outdoor use, and offering a variety of beam angles for multiple applications - 30°, 60°, 90° and Asymmetric-G4 Type.

Features

Available in 300W, 600W, 900W and 1200W models, the Contender allows for modular installation to accommodate any application. Quality die-cast aluminum construction with multiple beam angle lens options make it a suitable fixture for a multitude of environments.
