WARNING: These lotions can be harmful if swallowed and may cause sensitization by the throat. These lotions can be harmful if they come in direct contact with eyes and can cause sensitization by eyes.

First-Aid Measures

Eye Contact:

Check for and remove any contact lenses. Immediately flush eyes with room temperature water for at least 15 minutes, keep eyelids open. In case of any accidental eye contact, avoid concurrent exposure of UV light, which may increase the sensitivity of eyes.

-CONTINUED-

Skin Contact:

Prolonged or repeated skin contact is acceptable, there is no harm. Use soap and water to wash off any unwanted pigment, do not use the solvents or thinners.

Ingestion:

Wash out the mouth with water. If any of the solutions have been swallowed, then drink small amounts of water. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
