

# MINI-Z SERIES GYRO UNIT AND RC UNIT COMPATIBILITY CHART

There are three types of RC units for the MINI-Z readyset series as follows.

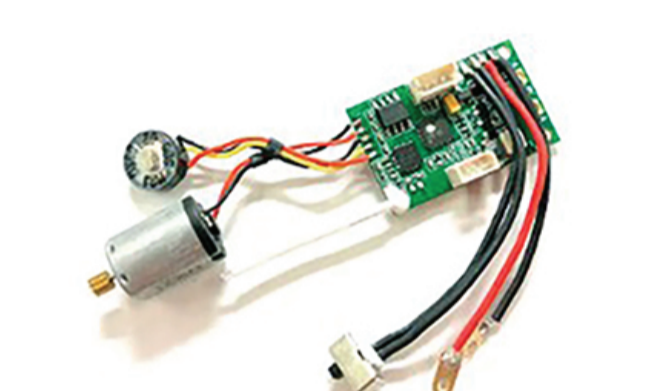

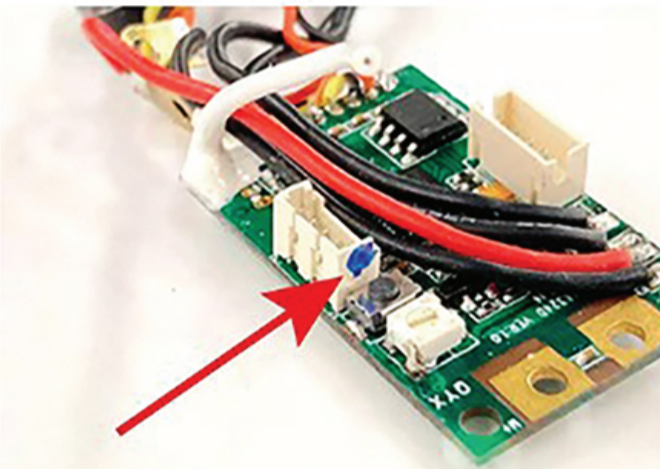

- Circuit board color: green, gyro connector: no marking
  - Circuit board color: green, gyro connector: blue marking
  - Circuit board color: blue
- \*All FWD substrates will be green.

Please refer to the chart below to identify the type of the RC unit installed in your MINI-Z and find out the compatible gyro unit.  
 ※ When checking the ready set before opening, the part number of the gyro that matches the gyro description part of the package is listed.

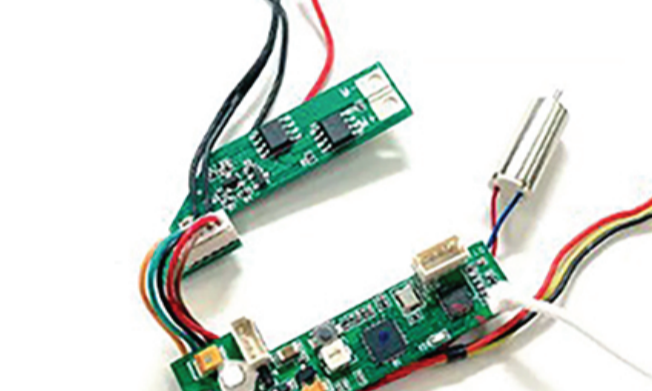

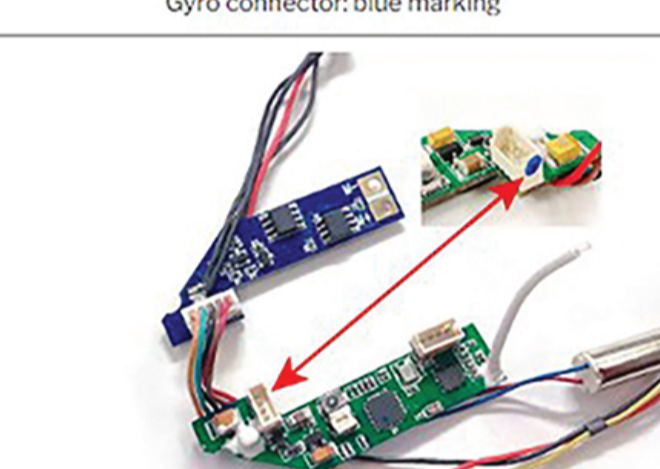

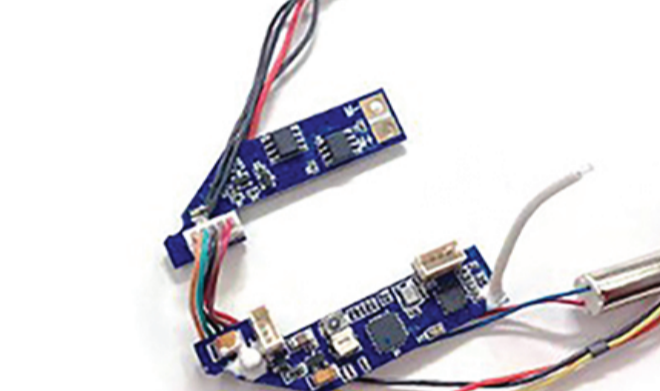

## MINI-Z RWD

Old RC unit Circuit board color: green Gyro connector: no marking	Old RC unit Circuit board color: green Gyro connector: blue marking	New RC unit Circuit board color: blue
		
Compatible gyro: MZW431	Compatible gyro: MZW446	Compatible gyro: MZW446
		

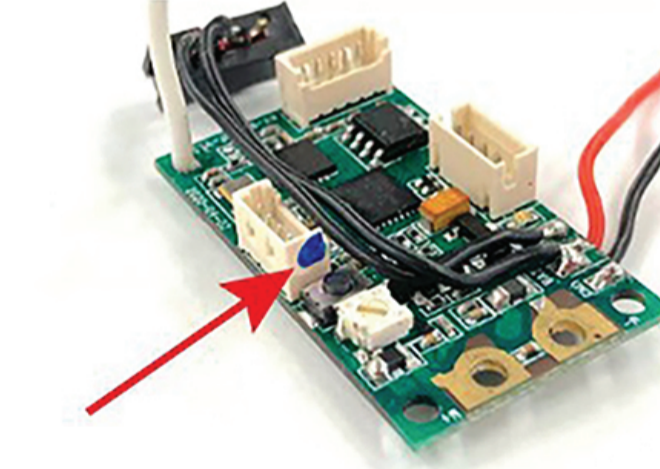

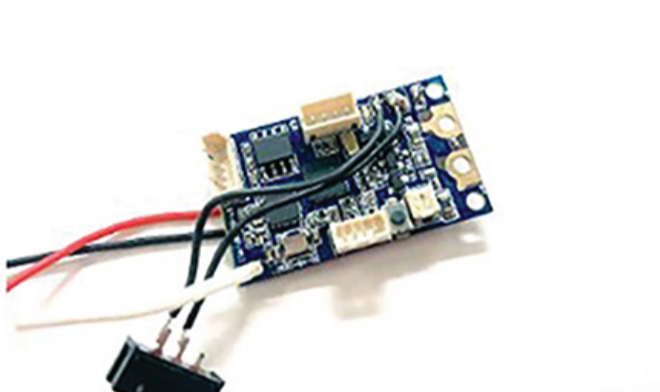

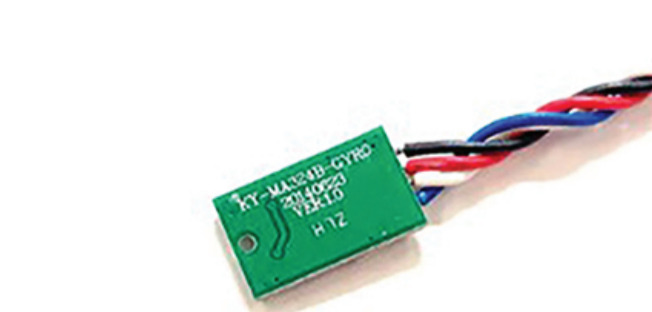

## MINI-Z AWD

Old RC unit Circuit board color: green Gyro connector: no marking	Old RC unit Circuit board color: green Gyro connector: blue marking	New RC unit Circuit board color: blue
		
Compatible gyro: MZW431	Compatible gyro: MZW446	Compatible gyro: MZW446
		

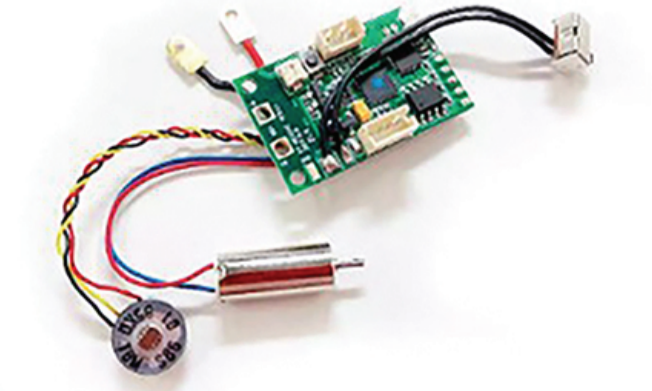

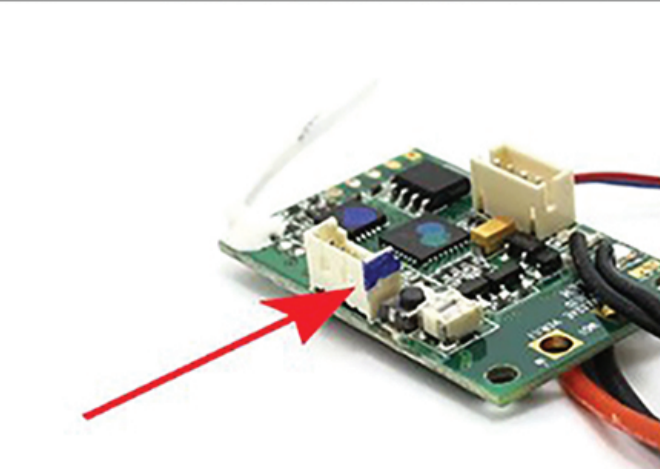

## MINI-Z BUGGY

Old RC unit Circuit board color: green Gyro connector: no marking	New RC unit Circuit board color: blue (Receiver circuit board color: green) Gyro connector: blue marking	New RC unit Circuit board color: blue
		
Compatible gyro: MZW431	Compatible gyro: MZW446	Compatible gyro: MZW446
		

## MINI-Z 4X4

Old RC unit Circuit board color: green Gyro connector: no marking	Old RC unit Circuit board color: green Gyro connector: blue marking	New RC unit Circuit board color: blue
		
Compatible gyro: MZW431	Compatible gyro: MZW446	Compatible gyro: MZW446
		

## MINI-Z FWD

RC unit Circuit board color: green Gyro connector: no marking	RC unit Circuit board color: green Gyro connector: blue marking
	
Compatible gyro: MZW431	Compatible gyro: MZW446
