

Ring size guide

PLEASE NOTE

THIS RING SIZER IS PROVIDED AS GUIDES ONLY
FOR THE GREATEST ACCURACY, PLEASE HAVE
YOUR FINGER MEASURED BY ONE OF OUR STAFF

For the best results, use a ring with a similar width
band and style to the one you want to purchase.

01 Print out at 100% – make sure you do not select
the ‘Scale to fit’ or ‘Shrink to fit page’ options.

02 Check the printout size: The line below should measure 5 cm.

03 Place the existing ring over the circles.

04 You can then measure the inside of the ring against the inside
edge of the circle. If you can hardly see the edge of the circle
this is the correct size. You should double check by comparing
against the circles on either side to be certain.

05 Your ring size is the letter shown within the circle.
