The Power of Nanotechnology

The Best Natural Pet Line

EcoSpaw's newest formula powered by Nanotechnology is the healthiest innovation in skin care for all your pets. Nanotechnology accomplishes better results than your traditional pet products! EcoSpaw's revolutionary formula has all the features you need and accomplishes them with ZERO toxic chemicals:

- Anti-itch
- Deodorizer (Nanotechnology eliminates odor molecules and doesn't mask them)
- Tearless
- Hypoallergenic
- For the most sensitive skin
- Removes light stains
- Kills bacteria, E. coli, Salmonella 100% organically
- Kills Tick & Flea 100% organically
- Relieves hot spots and soothes dry, flaky skin
- Promotes healing of wounds and damaged skin
- Fully rejuvenates dull coats and maintains pets' fur
- Untangles and degreases any fur
- Adds a natural shine to your pet

This chemical-free soap is pH-balanced, non-steroidal and rinses with exceptional ease.

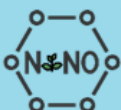

Ingredients: Bio based formula consisting of botanic plant-based enzymes and minerals, organic alcohols, sodium bicarbonate, fatty acids and soybean oil blended with water.

DOES NOT contain: Acids; Ammonia; Animal Products; Chlorine; Glycol Ethers; Harmful Detergents; Ozone Depleting Substances; Petroleum Distillates; Sulfates; Parabens; Phosphates; Synthetic Chemicals; Volatile Organic Compounds (VOCs).

All of our products are completely cruelty-free; in fact, we actually test them on ourselves!

All of this is done with absolutely no chemicals!

EcoSpaw has been laboratory tested (for VOCs, SVOCs/POMs, Biocides, Pyrethroids, PCBs, PAHs, Organophosphates and Phthalates) and found to be absolutely non-toxic and harmless to animals and humans.

The Power of Nanotechnology

The Best Natural Pet Line

Organic Pet Shampoo with Foam Pump

- Available Sizes: - Canada: 237 mL
- USA: 8 OZ
- Scents: - Unscented
- Natural Lavender

EcoSpaw's Organic Pet Shampoo is composed of non-ionic surfactants and an aqueous organic solvent made from plant-based enzymes and minerals capable of:

- Anti-itch, deodorizer, tearless, hypoallergenic, for the most sensitive skin
- Removes dander
- Relieves hot spots and soothes dry, flaky skin
- Healing of wounds and damaged skin
- Fully rejuvenates dull coats and maintains pets' fur
- Untangles and degreases any fur
- Adds a natural shine to your pet
- Removes stains

How to apply it?

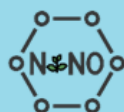

Lather onto your furry friend to be cleaned.

Agitate, allow dwell time, and scrub with hands, cloth, sponge, or brush.

Organic Pet Shampoo Refiller with Fill Cap

- Available Sizes: - Canada: 473 mL
- USA: 16 OZ
- Scents: - Unscented
- Natural Lavender

Our refiller option of All-Purpose Pet Shampoo is designed to save on plastic which is good for the environment and our customers' pockets!

The Power of Nanotechnology

The Best Natural Pet Line

Natural Bathless Spray

Available Sizes: - Canada: 89 mL Spray
476 mL Spray
710 mL Spray
- USA: 3 OZ
16 OZ
24 OZ

Scents: - Unscented
- Natural Lavender

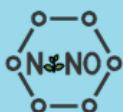

Our Bathless Spray removes the need for bath-time hassles! If your pet was recently bathed and got themselves dirty after a walk, made a mess, or simply cannot be washed, our product can be applied directly to your furry friends without bathing them.

How to apply it?

Just apply thoroughly against their hair grain and onto the skin and let dry (or lightly dry with a towel if necessary - such as small pets).

EcoSpaw's revolutionary formula has all the features you need in one bottle:

- Anti-itch, deodorizer, tearless, hypoallergenic, for the most sensitive skin
- Removes dander
- Relieves hot spots and soothes dry, flaky skin
- Healing of wounds and damaged skin
- Fully rejuvenates dull coats and maintains pets' fur
- Untangles and degreases any fur
- Adds a natural shine to your pet
- Removes light stains

The Power of Nanotechnology

The Best Natural Pet Line

Natural Stain & Odor

Available Sizes: - Canada: 89 mL
710 mL
- USA: 3 OZ
24 OZ

Scents: - Unscented
- Natural Lemon

EcoSpaw's unique nanotechnology formulation is designed for all uses as it allows to complete elimination of odors, stains, and grease on pets and any surface such as fabrics, tiles, carpet, vinyl, wood, stone, and everything else.

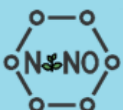

Nanotechnology is the only science in the world that completely break down odor molecules whereas all other generic product only mask odors with larger molecules. Odors are a leading cause of bacteria when not properly eliminated. This possible because we work at the nanoscale. As a proof of concept, we are strong enough to take out wine stains in under a minute

(link: <https://tinyurl.com/Power-of-NanotechnologyRev2>).

When used on pets, it rejuvenates the coating and damaged skin by promoting healing of the wounds, dry and hot spots! Nanoparticles are so tiny; they penetrate any stain.

Formula contains hypoallergenic, tearless and anti-itch properties which allows for usage as needed without worry.

This chemical-free pet stain & odor remover is biodegradable, pH balanced and non-steroidal.

The Power of Nanotechnology

Natural Tick & Flea (Non-Medicated / Pesticide Free)

Available Sizes: - Canada: 89 mL
710 mL
- USA: 3 OZ
24 OZ

Scents: - Unscented
- Natural Lavender

EcoSpaw's unique Nanotechnology formulation is designed for complete elimination of ticks, fleas, insects, and any harmful substance or living form on its way while completely rejuvenating your pets coating and damaged skin.

This formulation is the only one on the market that kills insects with ZERO chemicals or pesticides of any kind. Nanoparticles target an oil located in insects' shells without which they can't survive, there is no poisoning of any kind. Other tick & flea products on the market contain harsh chemicals such as *sodium lauryl sulfate* which has been shown to be a severe skin and eye irritant as well as an allergen.

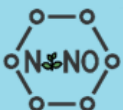

This formula is designed for all uses; every surface and pets. Formula contains hypoallergenic, tearless, anti-itch and deodorizing properties which allows for usage as needed without any worries.

How to apply it?

You can apply the tick & flea spray on your pet, on his/her bed and surroundings.

Please note the tick & flea is natural and non-medicated; therefore, you can use it as many times as possible since it is non-toxic. Apply as needed, before and after walks.

Eco-Pet Shower has been laboratory tested (for VOCs, SVOCs/POMs, Biocides, Pyrethroids, PCBs, PAHs, Organophosphates and Phthalates) and found to be absolutely non-toxic and harmless to animals and humans.

The Power of Nanotechnology

The Best Natural Pet Line

Skunk Be Gone

Available Sizes: - Canada: 89 mL
473 mL
710 mL
- USA: 3 OZ
16 OZ
24 OZ

Scents: - Unscented
- Natural Lemon

EcoSpaw's unique nanotechnology is the only science in the world that completely break down odor molecules whereas all other generic product only mask odors with larger molecules. Odors are a leading cause of bacteria when not properly eliminated.

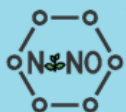

This powerful yet gentle formula will truly remove skunk odors as nanoparticles are so tiny, they will get to the absolute root of your pet's skin and fully eliminate odor molecules found at the nanometer. Our formula contains hypoallergenic, tearless, and anti-itch properties which even allow for **worriess** application to your **pet's face** as needed and as necessary.

How to Apply it?

After a single application, mixed with a mild to hot water shower which activates the nanoparticles to vibrate more intensely, the smell will be unrecognizable. One more application after a couple of hours when the pet is dry, and the smell will be completely eliminated. This has never been possible before which makes this formula revolutionary.

When used on pets, it rejuvenates the coating and damaged skin by promoting healing of the wounds, dry and hot spots!

This chemical-free pet skunk deodorizer is biodegradable, pH balanced, and non-steroidal.

The Power of Nanotechnology

The Best Natural Pet Line

Natural Bird & Cage Cleaner

Available Sizes: - Canada: 473 mL
- USA: 16 OZ

Scents: - Unscented
- Natural Lavender

EcoSpaw's unique Nanotechnology formulation is designed for the elimination of all dirt, odors, oils, and mineral deposits hidden deep inside your pet's plumes. The green origins of nanoparticles allow for relief to sensitive skin, feather picking and scratching, and minimizes molting and adds a protective barrier to clean and deodorize your pet and its cage.

It is the healthiest innovation in skin care for all pets. Nanotechnology requires less solution amount and accomplishes better results than chemical products. This science is the only one in the world that 100% eliminates odor molecules whereas all generic products only mask them with larger molecules. Odors are a leading cause for the creation of bacteria if not eliminated.

How to apply it?

Dilute concentration with 4 parts water and add to your feathery friend's bath. Add concentrate to a spray bottle and spray onto bird cage. Allow dwell time and wipe off and clean excess solution.
