Balto® Bone

Feline

- High quality breathable fabric
- Comfortable to wear
- Hand washable (always remove the rigid splints before washing)
- Available in an XS feline size

The Balto® Bone Feline is an alternative to splints and casts for treating hyperextension and bone fractures of the front leg, ensuring support and stabilization during the healing process. It features three rigid splints - one fixed onto the back of the brace and two that can be freely adjusted with strong Velcro® to provide different positions and levels of stability.
