

Preferred Collection

CopperBody

- Custom fit for males and females; 17 sizes available
- Three styles: Classic, Castration, or Full-Legged
- Copper fabric for antibacterial protection and healing
- Easy step-in zipper for quick application
- Stretch-fit design with 30+ UVA/UVB protection

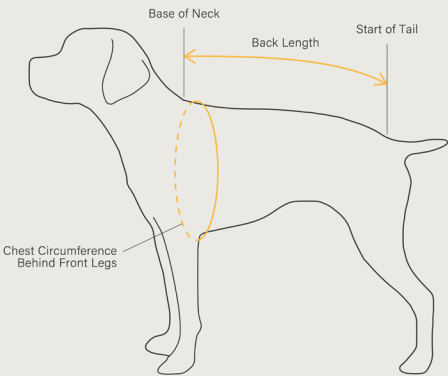

CopperBody Classic Pictured

The CopperBody Protective Suit helps protect surgical sites, wounds, and skin conditions while allowing natural mobility and behavior. Antimicrobial copper fabric provides a continuous barrier against contamination, supporting faster healing and healthier skin. Available in 17 sizes and three styles (Classic, Castration, Full-Legged), it accommodates both male and female patients with ease. A single, ergonomic zipper ensures quick, low-stress application and removal. Built-in 30+ UVA/UVB protection makes it ideal for both in-hospital and at-home recovery.
