

Running VST CoffeeTools™ on Windows 7, 8 and 10

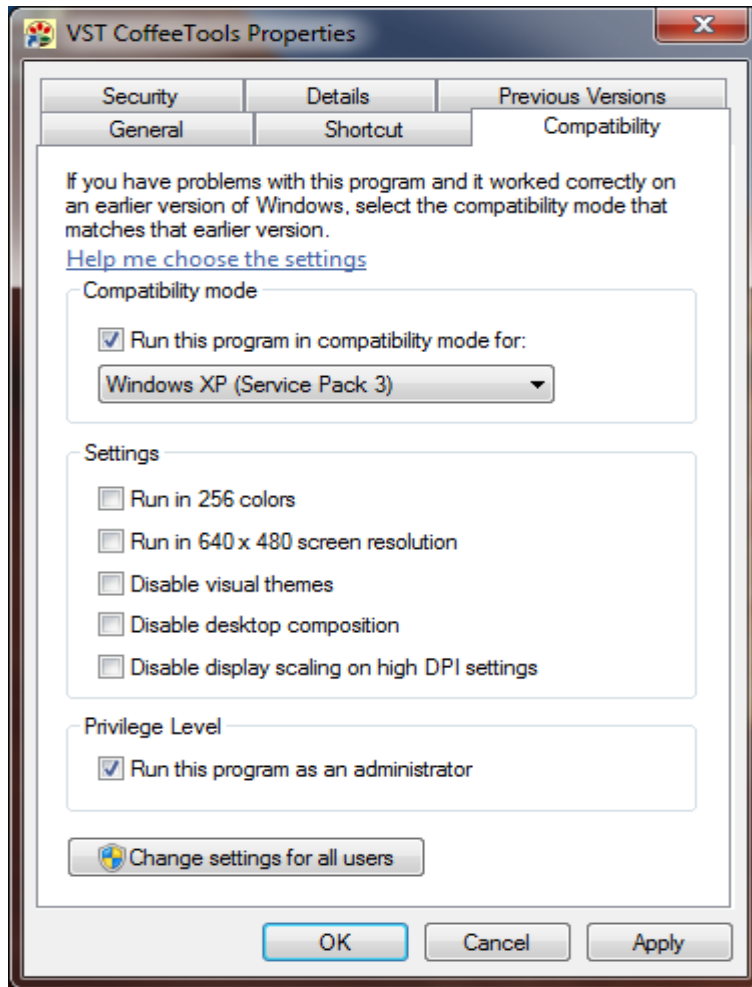

Before you run VST CoffeeTools™ on Windows 7,8 or 10 you must do the following:

For Windows 7:

1. Right click the VST CoffeeTools™ icon on your desktop

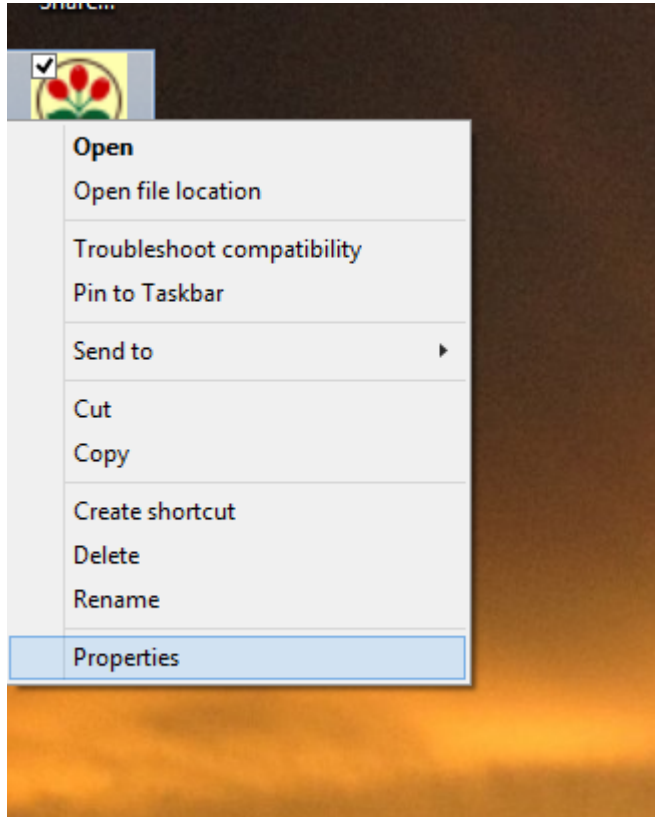

2. Select Properties
3. Select the Compatibility Tab

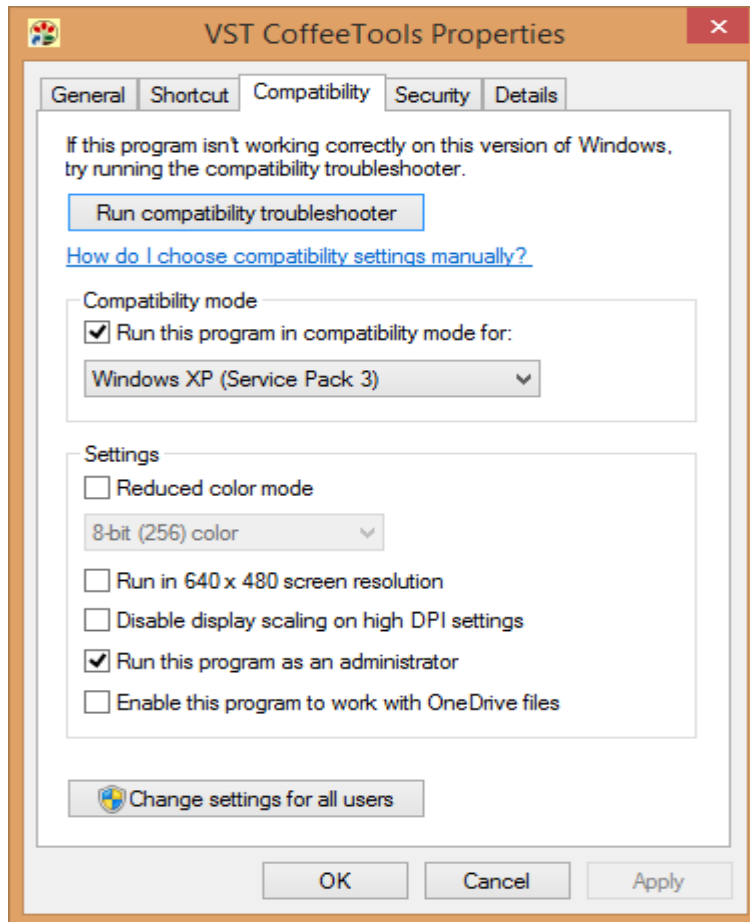

4. Check "Run this program in compatibility mode for:"
5. Select Windows XP (Service Pack 3) from the drop down list.
6. If you have administrator access, also check the "Run this program as an administrator." This will significantly reduce the launch time.
7. Click OK.
8. Now you can now launch VST CoffeeTools™ by double clicking the VST CoffeeTools™ icon.

For Windows 8:

1. Right click the VST CoffeeTools™ desktop icon.

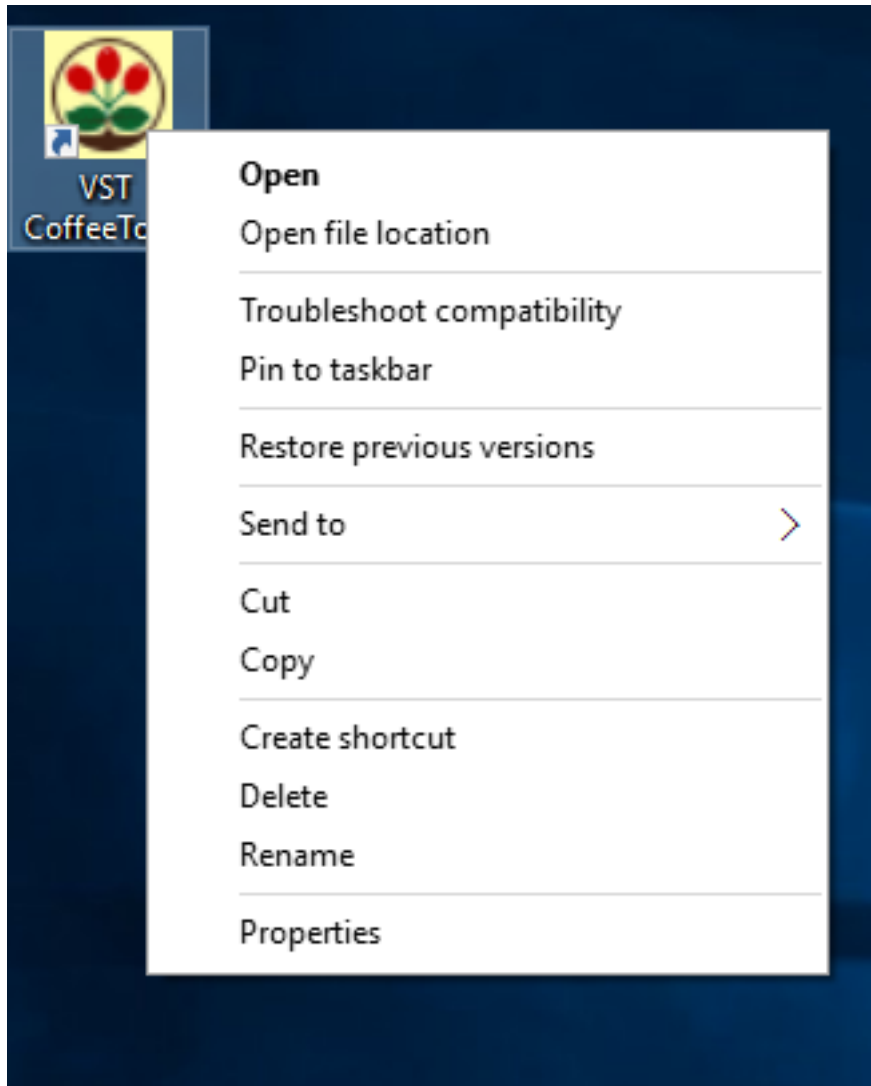

2. Select Properties
3. Select the Compatibility tab.

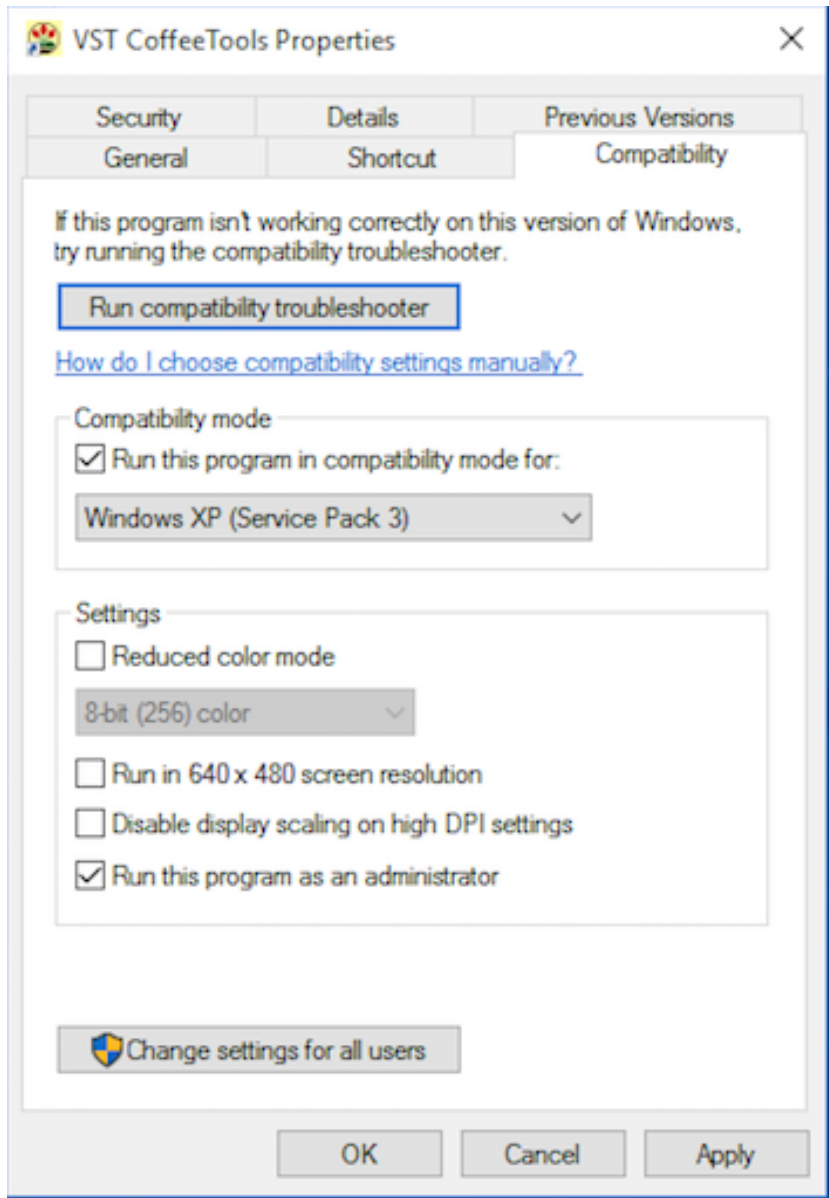

4. Check "Run this program in compatibility mode for:"
5. Select "Windows XP (Service Pack 3)" from the drop down menu.
6. If you have administrator access, also check the "Run this program as an administrator." This will significantly reduce the launch time.
7. Click OK
8. Now you can now launch VST CoffeeTools™ by double clicking the VST CoffeeTools™ icon.

For Windows 10:

1. Right click the VST CoffeeTools™ desktop icon
2. Select Properties
3. Select the Compatibility tab

4. Check "Run this program in compatibility mode for:"
5. Select "Windows XP (Service Pack 3)" from the drop down menu.
6. If you have administrator access, also check the "Run this program as an administrator." This will significantly reduce the launch time.
7. Click OK
8. Now you can now launch VST CoffeeTools™ by double clicking the VST CoffeeTools™ icon.
