Super popular! The ultimate bare hand-sensing grab with high operability and sticking to the hand

JB-004S

Click here to purchase 004S!

The smallest wagyu JB model designed with the concept of "overwhelming bare hands sense" when you get a grab. By using Miyazaki Wagyu leather, which is characterized by fine fibers and supple and sticky texture, you can feel a fit that sticks to your bare hands. In addition, the fit creates a sense of unity that works as if the glove were part of the body, and it is possible to realize the play as you imagined.

It is the best size for working adults, universities, high school students, as well as elementary and junior high school students who prefer small infielder grabs, as well as elementary and junior high school students who are about to start a rigid type.
