

PharmLabs San Diego Certificate of Analysis

3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-000098-LIC
 ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #85368

Sample **Tropical Punch**

Sample ID	SD220525-006 (48594)	Matrix	Edible (Other Cannabis Good)
Distributor License	604034860	Address	7 Vanderbilt, Irvine CA, 92618
Sampled	-	Received	May 24, 2022
Analyses executed	QARUSH, FP-NI20	Reported	May 27, 2022
		Unit Mass (g)	41.763
		Serving Size (g)	4.176
		Name	Savage Enterprises

Laboratory note : The estimated concentration of the unknown peak in the sample is 0.14% | Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)d8-THC or d9-THC. At this time there are no reference standards available for (+)d8-THC. (+)d8-THC is a different compound from the main (-)d8-THC cannabinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)d8-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC and d9-THC with the majority, if not all, of the concentration being (+)d8-THC. | Estimated Total d8-THC concentration = 0.93%

CAN20 - Cannabinoids Analysis

Analyzed May 26, 2022 | Instrument HLPC
 Measurement Uncertainty at 95% confidence 7.806%
