

Socket data

Socket to hose correction combinations

Use of the correct Eaton socket with a given Aeroquip hose is essential for proper assembly and performance.

Virtually all Eaton hose sockets are marked with the socket part number and dash size. Using this number, from the table below, the

correct hose or hoses may be found and dash sizes matched, to assure the correct combination.

Reusable sockets	Socket base part number	Aeroquip hose base part number	Dash sizes	Reusable sockets	Socket base part number	Aeroquip hose base part number	Dash sizes
