ACOUSTIC GUITAR SETS

EXP™ Coated Phosphor Bronze

D'Addario EXPs are the most natural-sounding, longestlasting coated strings available. EXP coated technology starts with the highest quality Phosphor Bronze wrap wire, precision drawn and micro-coated on our advanced proprietary machinery. Strings are then wound normally, delivering tone and feel identical to D'Addario's world renowned acoustic strings, with a minimum of 4 times more life. You won't believe they are coated!

Item #	Scale	Gauge
EXP15	EXP Coated PB Extra Light	.010047
EXP26	EXP Coated PB Custom Light	.011052

80/20 Bronze Round Wound

80/20 Bronze, commonly referred to as brass, is the original acoustic string alloy selected by John D'Addario Sr. and John D'Angelico in the 1930s. 80/20 Bronze strings are popular for recording due to their crisp, deep and projecting tone and appeal to many traditionalists and vintage enthusiasts for their historical significance. All

D'Addario acoustic strings are wound on a hexagonally shaped, high carbon steel core, resulting in long lasting, bright sounding tone with excellent intonation.

Item #	Scale	Gauge	
EJ11	Light	.012053	
F.J12	Medium	013- 056	

NEW! XL Balanced Tension

D'Addario Balanced Tension guitar sets are comprised of mathematically optimized string gauge combinations, resulting in greater control and playing comfort. Combined with the distinctive bright tone of XL nickel wound strings, each set offers greater dynamic control and a more consistent feel between strings for evenly balanced bending, strumming and picking.

CLASSICAL GUITAR SETS

Pro∘Arté™ Classical Guitar

Each Pro*Arté string is sorted by a sophisticated computercontrolled laser machine which performs diameter/tension measurements and quality checks, ensuring true sounding, precise trebles in every set. Pro*Arté basses are wound using silverplated copper on a multi-filament nylon core for consistent, warm-yet-projecting tone.

Item # Scale	
EJ45	Silver/Clear/Normal
EJ46	Silver/Clear/Hard

EXP™ Classical

Our revolutionary micro-fine EXP coating is applied to the silverplated copper wrap wire BEFORE winding. This exclusive coating material and process delivers transparent tone, a natural feel, and strings that last at least 4 times longer. Combined with our precision laser-selected nylon trebles, EXPs are the ultimate classical strings.

Item #	Scale
EXP45	EXP Coated Silver Wound/Normal
EXP46	EXP Coated Silver Wound/Hard

D'Addario Classics

D'Addario Classics utilize our precision rectified nylon trebleseach ground using our proprietary centerless grinding technique. Roundness and dimension control are unsurpassed, ensuring absolutely perfect intonation. Classics are known for their warmer, mellower tone and slightly textured feel.

GUITAR TUNERS

NEW & IMPROVED! NS Mini Headstock Tuner

Powered by the latest version of the highly praised Planet Waves tuning software, the NS Mini offers improved accuracy, faster response and Multi-Color backlit display allowing for smooth and highly accurate tuning in noisy, dim or well-lit environments. The miniscule design and reversible screen allow the tuner to hide effortlessly behind or mount on the front side of the headstock while the 360 degree swivel mechanism and adjustable padded clamp, offers optimal viewing angles and maximum mounting flexibility. Enjoy effortless and inconspicuous tuning with the NS Mini Headstock

- · Improved software for faster response and improved accuracy
- · Reversible screen allows mounting in front or behind the headstock
- Tri-color backlit LCD screen makes it easy to tune in dark environments
- · Built-in piezo transducer picks up instrument's vibration rather than sound
- · Available as a single or twin-pack
- · Designed in Conjunction with Ned Steinberger.

Item# PW-CT-12

I love this tuner. Compact, light, fast, easy to use. it's perfect.

*seller

Universal II Chromatic Tuner

For beginners to professionals, the Universal II Chromatic Tuner is the perfect choice for tuning anything from a 5-string bass all the way up to a mandolin. Recommended for all instruments.

- · Easy to read LCD and LED displays
- · Oversized note indicator
- · Dual-mode operation for Auto or Manual tuning of pitches
- A440 calibrated. May be user-calibrated to any pitch from A435 to A445
- · Requires one CR2032 battery (included)

Item# PW-CT-09

The NS Capo Line is the product of an ongoing collaboration between famed product designer, Ned Steinberger and D'Addario & Company. The ultimate capo line features sleek, ultra-light designs, fast and accurate single hand positioning with in-tune performance at every fret. Plus, Lightweight aluminum adds virtually no weight to the guitar's neck when in use.

NS Capo™ Pro

- Micrometer screw assures perfect pressure for buzz-free, in-tune performance at every fret
- · Single hand operation
- · Ultra-light aerospace-grade aluminum
- · Designed for 6- or 12-string guitars
- · A patented Ned Steinberger design
- · Also available for classical guitar

Item#	Description		
PW-CP-04	NS Capo Classical		

Patent #D521,048S

NEW! Tri-Action Capo

The NS Tri-Action capo assures buzz-free, in-tune performance at any fret. The patent-pending Tri-Action geometry reduces the force required to open and close the capo and applies even tension regardless of neck profile. Combined with the micrometer tension adjustment and direct horizontal pressure, the Tri-Action Capo virtually eliminates pulling the strings side to side and the need to retune during use. Additionally, the lightweight aluminum construction adds negligible weight to the neck of the instrument. The capo features an integrated pick holder and is a Ned Steinberger design.

- Designed for acoustic and electric guitars with radiused fretboards
- Micrometer tension adjustment assures buzz-free in-tune performance at every fret
- Single hand, easy to operate Tri-Action Geometry; clamps to the headstock when not in use
- · Aircraft grade aluminum construction
- Designed for 6-string electric and acoustic guitars

Item #	Description	
PW-CP-09	Tri-Action Capo, Black	
PW-CP-09S	Tri-Action Capo, Silver	

POLISHES & CLOTHS

Step 1: RESTORE - Deep-Cleaning Cream Polish

Planet Waves RESTORE deep-cleaning cream polish is a rich formula designed to cut through the toughest grime. Safe on all common guitar finishes to polish out swirl marks and even minor scratches.

Item# Description
PW-PL-01 Planet Waves Restore Polish

Step 2: PROTECT - Pure Liquid Carnauba Wax

Planet Waves PROTECT is a natural protectant and sealer combining premiumquality Brazilian Carnauba and advanced chemistry to produce a distinct radiance with quick and easy application.

Item# Description
PW-PL-02 Planet Waves Protect Wax

Step 3: SHINE - Spray Cleaner & Maintainer

Planet Waves SHINE spray cleaner and maintainer keeps your finish looking like new every day. SHINE erases dust, fingerprints, and minor imperfections, while color enhancers bring out your instrument's beauty.

Item# Description
PW-PL-03 Planet Waves Shine Spray

Hydrate

Planet Waves Hydrate is the ultimate treatment to restore the character of dark, natural wood fingerboards. This unique formula of oils and cleaners removes dirt and grime while restoring moisture to the fretboard, preventing cracks and other damage.

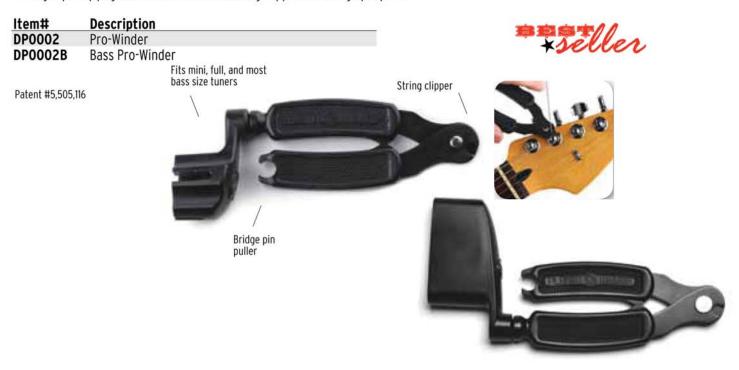

Item# Description
PW-FBC Hydrate Fingerboard Conditioner

STRING WINDERS

NEW DESIGN! Pro-Winder™

The ultimate restringing tool. Unlike ordinary peg winders, the patented Pro-Winder is a high-quality peg winder with a built-in string clipper and bridge pin puller

Screeching Halt™

Take your electric acoustic playing to new levels... in volume, that is. The Planet Waves Screeching Halt soundhole plug allows you to play your electric acoustic at far greater volume, without unwanted feedback or howling. The tapered design allows for a great fit in most soundholes, while the inert material is safe for your guitar's finish. Simply place the Screeching Halt into your acoustic's sound hole, and enjoy a feedback-free performance.

- · Eliminate feedback and enhance stage volume
- · Soft rubber insert safe for guitar finish
- Tapered design allows greater fit to a variety of guitars
- · Quick and easy to install & remove

Item# Description
PW-SH-01 Screeching Halt

Auto-Trim™ Tuning Machines (an NS Design product)

(With patented built-in String Cutters)

The Planet Waves 3 + 3 format Auto Trim Tuning Machines are precision tuners that automatically cut the excess string while changing strings, eliminating the need for string cutting tools and making string changes easy and fast. The 18:1 ratio worm gear construction ensures greater precision than standard tuners and ensure tuning stability even during the hardest playing. Includes 6 tuners and mounting hardware. Protected by US Patent # 6,365,809

Item#	Description
PWAT-6R1	6 (In-Line) Auto-Trim Tuning Machines - Chrome Finish

Elliptical End Pins

The Planet Wave Elliptical End Pins are not your ordinary end pins. The elliptical design combines function and style by securing any strap in place while complementing the aesthetics of any guitar or bass.

- · Safely secures strap to instrument
- · Works with all guitars and basses
- · Easy installation

YOUR FAVORITE STRAPS

AVAILABLE 3 WAYS!

1

LEATHER END

Planet Waves standard leather ends are far from standard. Meeting tight aesthetic, dimensional and structural specifications these leather ends can hold up to just about any abuse and fit all standard strap pins.

PLANET LOCK

The patented design of Planet Lock™ fits virtually any guitar and stays locked in place until you release the side pin. Unlike ordinary strap lock systems, the Planet Lock™ is designed to fit securely on your guitar's existing end pin. The Planet Lock is safe, secure, and easy to use.

ACOUSTIC QUICK RELEASE

The Planet Waves Acoustic Quick Release™ eliminates tying and untying knots to add and remove your strap. Attach the loop through end of the Acoustic Quick Release to the headstock and attach the standard end to the strap pin. Simply unclip the quick release latch to remove your strap.

AMERICAN STAGE CABLES

NEW! American Stage Instrument Cables

The American Stage instrument cables are built from the ground up to ensure that nothing comes between you and your tone.

Our custom design Made in the U.S.A. wire reproduces full lows and rich highs, accurately transferring your true tone with clarity and noise free operation.

Our "in line" solder process utilizes modern micro flame technology and specially formulated RoHS compliant solder to create a permanent bond between wire and connector, creating unsurpassed strain relief and durability.

Speaking of connectors, ours are designed to exacting specifications and built with confidence by Neutrik in their state-of-the-art facility in Lichtenstein using the highest quality components available.

And finally, our innovative patented GeoTip provides a seamless and secure connection between your guitar and amp. It all adds up to tone: the best materials, customized design and U.S.A. precision manufacturing combine to deliver a truly unique, professional performance cable.

GEOTIP™ CONNECTION:

Patent-Pending GEO-TIP design ensures a secure connection in any instrument, pedal, or amp jack.

ORDINARY CONNECTION:

Mechanical tolerances on 1/4" jacks used in most guitars over the last sixty years vary. As a result, some plugs may not connect and lock in well. GEO-TIP" is designed to accommodate these out-of-tolerance jacks.
