## TO GO BOTTLE

Enjoy the time to unwind and relax with TO GO BOTTLE. The bottle's double wall structure makes drinks look like they are floating in air and prevents ice from melting quickly, keeping drinks cold for a long time. The straw-type spout is made of soft silicone material which feels smooth on the mouth. With a handle that is comfortable to hold, it is easy to carry around.

# DRINKWARE

## SLOW COFFEE STYLE

SLOW COFFEE STYLE brings you the joy of a slow, relaxing passage of time with pour over coffee. Organic forms, calm colors, and warm textures are designed to help you unwind. The items integrate well into spaces with a relaxing atmosphere. The collection gives depth to your daily ritual of brewing coffee.

# SCS-S02

SCS-S02 brewer stand combines walnut wood in deep color and brass that will age beautifully. The wooden base resists coffee stains due to its coating, and the height of the stand can be adjusted for brewing into your own mug or server. White dots on the glass server indicate the amount of dripped coffee, and the holder can be used to place the brewer after use.

SCS-S01 is characterized by its bold appearance and the metal-like texture of the glaze. The roundness of the mug's rim and the handle that comfortably fits your fingers make drinking a pleasant experience. The rim of the brewer does not get hot and can be held without a handle.

SCS-S03 mugs have rich expression brought about by traces of handwork on the potter's wheel and two colors of layered glaze. Mixing luster and matte textures, a profound scenery is created to enrich your coffee time. The supple shape fits inside your hands, and the wide arched handle connects smoothly to the cup, making it comfortable to use.

# SEPIA

Like looking into an old photo, SEPIA evokes a sense of nostalgia and comfort. The square shaped handles of the cups and the gently curving form of tumblers allow you a firm grip. Made of heat-resistant glass, items can be used for hot and cold drinks. The tray is elegant with thick handles made of solid wood, and there is a coating on its surface that prevents items from slipping when serving.

CLK-151 items have a humble yet dignified presence. Rough texture of the clay peeks out at the bottom under the calm color glazing, and the bottom edges give a sharp impression reminiscent of quarried stone. The handle of the teapot can be gripped comfortably, and the spout is designed so that it is drip-free. The large strainer is easy to clean and allows tea leaves to open widely inside to release their flavor.

## ATELIER TETE

ATELIER TETE tableware is brought to life by refined craftsmanship. “Te” means “hand” in Japanese, and the experience centers on the hand—traces of handwork can be seen in the tableware, and your hands are naturally led to touch each piece. Inspired by natural objects, there is beauty in the subtle unevenness of shape, texture and tone. The edges are thin and smooth to assure comfort when using. The elegant pieces enhance your presentation on the table.

# HIBI

HIBI, meaning “day to day” in Japanese, is designed to be timeless basics for the everyday table. The rice bowl and urushi bowl fit comfortably in your hands with a slightly narrowing base. The plate is slightly deepened in the center to accommodate various dishes. Each urushi bowl is given shape by skilled craftsmen from cherry wood, and carefully finished using the “fuki urushi” technique in which lacquer is applied and wiped off many times.

HIBI chopsticks have been carefully handcrafted by artisans. With just the right thickness they are comfortable to hold, and the fine tip makes it easy to pick food. The top part has a cut design that serves as an accent. There are two sizes: 235mm for adults and 180mm suitable for small children. Finished with beeswax and a careful polishing process, the chopsticks have a pleasant matte feel. The natural expression of the wood blends well with other tablewares.

# KITCHENWARE

## KAKOMI IH donabe

KAKOMI IH donabe can be used on gas, induction heating, or halogen cooktops. You can easily prepare a healthy dish by steaming ingredients using the steam plate. Without it, you can simmer and stew various pot dishes. Cleaning is easy as the pot's water absorption rate is extremely low and it prevents odors from remaining. The design is suitable in both form and function for a modern, eclectic lifestyle.

\*This product is not suitable for All-metals induction heaters.

# KAKOMI rice cooker

KAKOMI rice cooker is designed to be used on gas cooktops. The double lid and round shape of the pot generates the right level of pressure and convection inside, making rice with fluffy texture and also preventing liquid from boiling over when cooking. Inside the pot, there are reference lines for making one cup and two cups of rice. Cleaning is easy as the pot's water absorption rate is extremely low and it prevents odors from remaining.

[Pot] Heat-resistant ceramic / Direct fire, microwave, oven, and dishwasher safe

[Lid] Ceramic / Microwave, oven, and dishwasher safe

# CLK-211

The CLK-211 combines the rough texture of clay with a subtle glaze color. Big enough to be used for cooking, yet small enough to be placed on a dinner table, the CLK-211 will bring warmth to any dinner, or kitchen. The oil bottle features a tilt-and-pour lid and a thin, drip-free spout for easy controlled pouring. The canisters have a sturdy body, with a nostalgic cork lid. The canisters come in 3 different sizes: 100ml, 400ml, and 650ml. The range of sizes allow storage for condiments such as salt, spices, tea, coffee, and granola.

\*For maximum insulation efficiency, preheat or precool the tumbler prior to use by filling in a bit of hot/cold water for 1-2 mins. \*1 This indicates the temperature of the water measured 6 hours after, putting cold water into the product at a room temperature of 20°C±2°C and putting on the lid when the water temperature reaches 4°C±1°C. \*2 This indicates the temperature of the hot water measured 6 hours after, putting hot water into the product at a room temperature of 20°C±2°C and putting on the lid when the water temperature reaches 95°C±1°C. \*3 This indicates the estimated time it takes for ice cubes to melt when ice cubes and cold water are placed inside the product and covered with the lid at a room temperature of 20°C±2°C. The melting time varies depending on the size of the ice cubes. \*4 Close the lid tightly to prevent spills or leakage when carrying. Please flip and rotate the product to check that there is no leakage after closing the lid. \*The specifications and prices of the product are current as of March 2024.
