

Spring planner

maximising your green space

Easy steps
to create your
perfect
green oasis

edengardens.com.au

We can help you bring your
outdoor space to life
this Spring!

*From courtyards to lush gardens or veggies to balconies,
we have solutions for every sized area.*

The beauty of nature,
is that it thrives
everywhere.

The secret to this
success is finding what
works best for that
area and planting that!

You need to consider
the direction of your
space, how the sun moves throughout the day
and creates shade and then of course what look
you want to go for to build your own oasis.

Small space solutions

Small space gardening can utilise all the benefits
that container gardening has to offer.

You can arrange troughs to grow nature's screens,
plant dwarf citrus or veggies in pots so you can get
that harvest high! So balcony, courtyard or terrace,
we've got the solution.

Gardens

What is your garden dream? Sprawling lawns with
manicured hedges, rainbows of flowers, drought
tolerant gardens full of cacti and succulents or
habitat gardens full of Aussie natives that bring
the birds and the bees?

You can cluster 3 different sized pots to give
impact and structure – with your only big decision
being what plants inspire you?

What's the look you're going for from say Tropical
palms or stunning succulents?

*We are fully stocked with all of these
choices and are ready to help you
bring your dreams to life.*

Inspiring ideas to make your outdoor space come to life

Customer outdoor space grid

Tell us what your space looks like?

- Draw the current garden area you are wanting to makeover (See example below)
- Measure the length + width
- Mark 'North'
- Mark any large trees close by
- Take a reference photo on your phone
- Note shadow/sun timing

Spring planting

all the latest plant ideas

Our Spring range is now instore.

Spring is the time to get in the garden and give everything a refresh. You can sow seasonal flowers, feed everything from your lawn to your fruit trees, remove winter veg and plant summer vegetables and herb gardens. Repot your indoor plants that may look rootbound. *So get planning today and find the joy in Spring.*
