1. To enter Pairing Mode, first turn on AirFly USB-C then press and hold button 1 for four seconds - until light flashes white and amber.

2. To enter Pairing Mode on AirPods, first place AirPods inside the Charging Case. With lid open, press and hold the button on the back of the Charging Case until the light flashes white.
3 Once successfully paired, the light on your AirPods Charging Case will turn green and the light on AirFly USB-C will be solid white and turn off after 10 seconds.

To pair a second set of AirPods, repeat using button 2. (See page 10 for more details)

4 Plug AirFly USB-C into your iPad Pro or other USB-C device to listen to audio wirelessly.

*It can take up to 90 seconds for initial pairing, but AirFly USB-C will remember your AirPods when re-connecting in the future.
Pairing AirFly USB-C with Wireless Headphones

To enter Pairing Mode, first turn on AirFly USB-C then press and hold button 1 for four seconds - until light flashes white and amber.
2. Put your headphones into Bluetooth Pairing Mode (refer to your headphones' owner's manual for more details).

3. Once successfully paired, the light on AirFly USB-C will be solid white and turn off after 10 seconds.

*It can take up to 90 seconds for initial pairing, but AirFly USB-C will remember your headphones when re-connecting in the future.
Pairing AirFly USB-C with a Second Set of Wireless Headphones

1. To enter Pairing Mode, first turn on AirFly USB-C then press and hold button 2 for four seconds - until light flashes white and amber.

Button 2

ON/OFF Switch

Time: 0:00:04
2. Put the second set of headphones into Bluetooth Pairing Mode (refer to your headphones’ owner’s manual for more details).

To add a second pair of AirPods, please refer to AirPod pairing on page 1.

3. Once successfully paired, the light on AirFly USB-C will be solid white and turn off after 10 seconds.

*It can take up to 90 seconds for initial pairing, but AirFly USB-C will remember your headphones when re-connecting in the future.
Turning AirFly USB-C On & Off

Use the switch on the side of AirFly USB-C to turn it on or off.

Slide up to turn on.
Slide down to turn off.

AirFly USB-C will reconnect to both sets of headphones when turned back on.

Reconnecting Your AirPods or Headphones Back to Your Smartphone/Tablet

Once paired, AirFly USB-C will remember your AirPods / Headphones and switch to them when the unit is turned on. To switch back to using your AirPods / Headphones with your Smartphone or Tablet, first turn AirFly USB-C off.

On your device, open Bluetooth Settings, and select your headphones from the list. Status will change from Not Connected to Connected once headphones are successfully paired with your device.
Charging AirFly USB-C

To recharge, simply plug the included USB-C to USB-A charging cable into AirFly USB-C, and then into any powered USB port. AirFly USB-C is fully charged within 2 hours.

The internal battery of AirFly USB-C lasts about 20 hours. We recommend fully charging AirFly USB-C before using it for the first time. If your AirFly USB-C is low on power, it will flash amber three times to alert you that it will need to be charged soon.

While charging, the AirFly USB-C will illuminate in amber and stay on. Once fully charged, the amber light will turn off.

Pass Through Charging
If you need to charge your Pad Pro or other USB-C device while using AirFly USB-C, simply plug your USB-C charger into AirFly USB-C, which will allow pass-through charging.

Tips & Tricks

1. If only one AirPod seems to be playing audio, turn AirFly off and back on. This will re-sync AirFly and should reconnect both AirPods.

2. If you want to pair a new set of headphones to AirFly, or are having trouble connecting to your headphones, reset AirFly USB-C by pressing and holding the Reset button on the side of AirFly USB-C for 4 seconds. Once reset, AirFly USB-C will blink amber 4 times, and then will go into Pairing Mode.
Status Light Guide

Power On
White LED flashes twice

Pairing Mode
White & Amber LED flash alternately

Unconnected Standby Mode
White LED flashes twice every 5 seconds

Connected Standby Mode
Solid White LED

Low Power
Amber LED flashes 3 times

Charging
Solid Amber

Fully Charged
Amber LED turns off

FCC Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Safety Statement
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage

NBTC Statement
This telecommunication equipment conforms to the requirements of the National Telecommunications Commission.

RED
Hereby, Twelve South, LLC, declare that the radio equipment type, Model number 12-1912, is in compliance with Directive 2014/53/EU. The full text of EU declaration of conformity is available at our website: http://www.twelvesouth.com

Frequency range: 2402 – 2480MHz
Transmission power: 40mW(undirected)
